SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. This notice identifies an information collection activity that OSM will be submitting to OMB for extension. This collection is contained in 30 CFR Parts 779 and 783—Surface and Underground Mining Permit Applications Minimum Requirements for Information on Environmental Resources. OSM is combining the two collections and will request that the collections be consolidated under OMB control number 1029–0035, eliminating 1029–0038.

OSM has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on reestimates of burden or respondents.

OSM will request a 3-year term of approval for this information collection activity.

While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency’s burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information.
