

Rules and Regulations

Federal Register

Vol. 73, No. 242

Tuesday, December 16, 2008

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 966

[Docket No. AMS FV-08-0090; FVO9-966-1 IFR]

Tomatoes Grown in Florida; Partial Exemption to the Minimum Grade Requirements

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule provides a partial exemption to the minimum grade requirements under the marketing order for tomatoes grown in Florida (order). The order regulates the handling of tomatoes grown in Florida and is administered locally by the Florida Tomato Committee (Committee). Absent an exemption, Florida tomatoes covered by the order must meet at least a U.S. No. 2 grade before they can be shipped and sold outside the regulated area. This rule exempts Vintage Ripes™ tomatoes (Vintage Ripes™) from the shape requirements associated with the U.S. No. 2 grade. This change increases the volume of Vintage Ripes™ that will meet the order requirements, and will help increase shipments and availability of these tomatoes.

DATES: Effective December 17, 2008; comments received by February 17, 2009 will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250-0237; Fax: (202) 720-8938; or Internet: <http://www.regulations.gov>. All comments

should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.regulations.gov>. All comments submitted in response to this rule will be included in the record and will be made available to the public. Please be advised that the identity of the individuals or entities submitting the comments will be made public on the Internet at the address provided above.

FOR FURTHER INFORMATION CONTACT: William Pimental, Marketing Specialist, or Christian Nissen, Regional Manager, Southeast Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA; Telephone: (863) 324-3375; Fax: (863) 325-8793, or e-mail: William.Pimental@usda.gov or Christian.Nissen@usda.gov.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 1400 Independence Avenue, SW., STOP 0237, Washington, DC 20250-0237; Telephone: (202) 720-2491; Fax: (202) 720-8938, or e-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 125 and Marketing Order No. 966, both as amended (7 CFR part 966), regulating the handling of tomatoes grown in certain designated counties in Florida, hereinafter referred to as the "order." The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (USDA) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any

handler subject to an order may file with USDA a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing, USDA would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review USDA's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule adds a partial exemption to the minimum grade requirements prescribed under the order. Absent an exemption, Florida tomatoes covered by the order must meet at least a U.S. No. 2 grade before they can be shipped and sold outside the regulated area. This rule exempts Vintage Ripes™ from the shape requirements associated with the U.S. No. 2 grade. This change increases the volume of Vintage Ripes™ that will meet the order requirements, and will help increase shipments and availability of these tomatoes.

Section 966.52 of the order provides the authority for the establishment of grade and size requirements for Florida tomatoes. Form and shape represent part of the elements of grade. Section 966.323 of the order's rules and regulations specifies, in part, the minimum grade requirements for Florida tomatoes. The current minimum grade requirement for Florida tomatoes is a U.S. No. 2. The specifics of this grade requirement are listed under the U.S. Standards for Grades of Fresh Tomatoes (7 CFR 51.1855-51.1877).

The U.S. Standards for Grades of Fresh Tomatoes (Standards) specify the criteria tomatoes must meet to grade a U.S. No. 2, including that they must be reasonably well formed, and not more than slightly rough. These two elements relate specifically to the shape of the tomato. The definitions section of the Standards defines reasonably well formed as not decidedly kidney shaped, lopsided, elongated, angular, or otherwise decidedly deformed. The term slightly rough means that the tomato is not decidedly ridged or grooved. This rule amends § 966.323 to exempt Vintage Ripes™ from these

shape requirements as specified under the grade for a U.S. No. 2.

Vintage Ripes™ are a trademarked tomato variety bred to look and taste like an heirloom-type tomato. One of the characteristics of this variety is its appearance. Vintage Ripes™ are often shaped differently from other round tomatoes. Depending on the time of year and the weather, Vintage Ripes™ are concave on the stem end with deep, ridged shoulders. They can also be very misshapen, appearing kidney shaped or lopsided. Because of this variance in shape and appearance, Vintage Ripes™ have difficulty meeting the shape requirements of the U.S. No. 2 grade.

In addition, the cost of production and handling for these tomatoes tends to be higher when compared to standard commercial varieties. The shoulders on Vintage Ripes™ are easily damaged, requiring additional care during picking and handling. These tomatoes are also more susceptible to disease. Consequently, Vintage Ripes™ require greater care in production to keep injuries and blemishes to a minimum. Still, when compared to standard commercial varieties, even with taking special precautions, larger quantities of these tomatoes are left in the field or need to be eliminated in the packinghouse to ensure a quality product. Losses can approach 50 percent or higher for Vintage Ripes™. With the higher production costs and the reduced packout, these tomatoes tend to sell at a higher price point than standard round tomatoes.

Heirloom-type tomatoes have been gaining favor with consumers. Vintage Ripes™ were bred specifically to address this demand. However, with its difficulty in meeting established shape requirements, and its increased cost of production, producing these tomatoes for market may not be financially viable without an exemption. In order to make more of these specialty tomatoes available for consumers, the Committee agreed to exempt Vintage Ripes™ from the shape requirements of the U.S. No. 2 grade. This exemption is the same as previously provided for a similar type tomato (72 FR 1919, January 17, 2007).

This rule only provides Vintage Ripes™ with a partial exemption from the grade requirements under the order. Consequently, Vintage Ripes™ will be exempt from the shape requirements of the grade but will still be required to meet all other aspects of the U.S. No. 2 grade. Vintage Ripes™ also continue to be required to meet all other requirements under the order, such as size, pack and container, and inspection.

Prior to the 1998–99 season, the Committee recommended that the minimum grade be increased from a U.S. No. 3 to a U.S. No. 2. Committee members agree that increasing the grade requirement has been very beneficial to the industry and in the marketing of Florida tomatoes. It is important to the Committee that these benefits be maintained. There was some industry concern that providing a partial exemption for shape for an heirloom-type tomato could result in the shipment of U.S. No. 3 grade tomatoes of standard commercial varieties, contrary to the objectives of the exemption and the order.

To ensure this exemption does not result in the shipment of U.S. No. 3 grade tomatoes of other varieties, this exemption only applies to Vintage Ripes™ covered under the Agricultural Marketing Service's Identity Preservation (IP) program. The IP program was developed by the Agricultural Marketing Service to assist companies in marketing products having unique traits. The program provides independent, third-party verification of the segregation of a company's unique product at every stage, from seed, production and processing, to distribution. This exemption would be contingent upon the Vintage Ripes™ gaining positive program status under the IP program and continuing to meet program requirements. As such, this should help ensure that only Vintage Ripes™ are shipped under this exemption.

Therefore, this rule exempts Vintage Ripes™ from the shape requirements associated with the U.S. No. 2 grade. This change increases the volume of Vintage Ripes™ tomatoes that will meet order requirements, and will help increase shipments and availability of these tomatoes.

Section 8e of the Act provides that when certain domestically produced commodities, including tomatoes, are regulated under a Federal marketing order, imports of that commodity must meet the same or comparable grade, size, quality, and maturity requirements. Since this rule provides a partial exemption from the minimum grade requirements under the domestic handling regulations, a corresponding change to the import regulations is also needed. A rule providing a similar partial exemption to the minimum grade requirements under the import regulations will be issued as a separate action.

Initial Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the

Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf.

There are approximately 100 producers of tomatoes in the production area and approximately 70 handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration (SBA) as those having annual receipts less than \$750,000, and small agricultural service firms are defined as those whose annual receipts are less than \$7,000,000 (13 CFR 121.201).

Based on industry and Committee data, the average annual price for fresh Florida tomatoes during the 2007–08 season was approximately \$13.71 per 25-pound container, and total fresh shipments for the 2007–08 season were 45,177,457 25-pound cartons of tomatoes. Committee data indicates that around 25 percent of the handlers handle 94 percent of the total volume shipped outside the regulated area. Based on the average price, about 75 percent of handlers could be considered small businesses under SBA's definition. In addition, based on production data, grower prices as reported by the National Agricultural Statistics Service, and the total number of Florida tomato growers, the average annual grower revenue is below \$750,000. Thus, the majority of handlers and producers of Florida tomatoes may be classified as small entities.

This rule provides a partial exemption to the minimum grade requirements for tomatoes grown in Florida. Absent an exemption, Florida tomatoes covered by the order must meet at least a U.S. No. 2 grade before they can be shipped and sold outside the regulated area. This rule exempts Vintage Ripes™ from the shape requirements associated with the U.S. No. 2 grade. This change increases the volume of Vintage Ripes™ that will meet the order requirements, and will help increase shipments and availability of these tomatoes. This rule amends the provisions of § 966.323. Authority for this action is provided in § 966.52 of the order.

This change represents a small increase in costs for producers and handlers of Vintage Ripes™, primarily from costs associated with developing and maintaining the IP program. However, this rule will make additional volumes of Vintage Ripes™ available for shipment. This should result in increased sales of Vintage Ripes™. Consequently, the benefits of this action are expected to more than offset the associated costs.

One alternative to this action that was considered was to not provide an exemption from shape requirements for Vintage Ripes™. However, providing the exemption will increase the volume of Vintage Ripes™ that will meet the order requirements, and will help increase shipments and availability of these tomatoes for consumers. Further, the same exemption had been provided previously for a similar tomato. Therefore, this alternative was rejected.

This rule will not impose any additional reporting or recordkeeping requirements beyond the IP program on either small or large tomato handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

AMS is committed to complying with the E-Government Act, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

In addition, USDA has not identified any relevant Federal rules that duplicate, overlap or conflict with this rule.

Further, the Committee's meeting was widely publicized throughout the Florida tomato industry and all interested persons were invited to attend the meeting and participate in Committee deliberations. Like all Committee meetings, the September 4, 2008, meeting was a public meeting and all entities, both large and small, were able to express their views on this issue.

Finally, interested persons are invited to submit comments on this interim final rule, including the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/AMSV1.0/ams.fetchTemplateData.do?template=TemplateN&page=MarketingOrdersSmallBusinessGuide>. Any questions about the compliance guide should be

sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

This rule invites comments on a partial exemption to the minimum grade requirements prescribed under the order. A 60-day comment period is provided to allow interested persons to respond to this rule. All written comments timely received will be considered before a final determination is made on this matter.

After consideration of all relevant material presented, including the Committee's recommendation, and other information, it is found that this interim final rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) The shipment of Florida Vintage Ripes™ begins in November, 2008; (2) this rule relaxes requirements prescribed in the order; (3) the Committee unanimously recommended this change at a public meeting and interested parties had an opportunity to provide input; and (4) this rule provides a 60-day comment period and any comments received will be considered prior to finalization of this rule.

List of Subjects in 7 CFR Part 966

Marketing agreements, Reporting and recordkeeping requirements, Tomatoes.

■ For the reasons set forth in the preamble, 7 CFR part 966 is amended as follows:

PART 966—TOMATOES GROWN IN FLORIDA

■ 1. The authority citation for 7 CFR part 966 continues to read as follows:

Authority: 7 U.S.C. 601–674.

■ 2. In § 966.323, paragraph (d)(5) all references to “UglyRipe™” are revised to read “UglyRipe™ and Vintage Ripes™”.

Dated: December 10, 2008.

James E. Link,

Administrator, Agricultural Marketing Service.

[Docket No. LS–08–0041]

Lamb Promotion and Research Program: Procedures To Request Conduct of a Referendum

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This final rule amends the regulations issued under the Lamb Promotion, Research, and Information Order (Order) pursuant to administrative changes to Web addresses and office locations within the USDA's Agricultural Marketing Service.

DATES: *Effective Date:* December 17, 2008.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Payne, Chief, Marketing Programs Branch, on (202) 720–1115, fax (202) 720–1125, or by e-mail at Kenneth.Payne@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

The Commodity Promotion, Research, and Information Act of 1996 (Act) (7 U.S.C. 7411–7425) authorizes USDA to establish generic programs of promotion, research, and information for agricultural commodities designed to strengthen an industry's position in the marketplace and to maintain and expand existing domestic and foreign markets and uses for agricultural commodities. Pursuant to the Act, a proposed Order on the Lamb Checkoff Program was published in the **Federal Register** on September 21, 2001 (66 FR 48764). The final Order was published in the **Federal Register** on April 11, 2002 (67 FR 17848). Collection of assessments began on July 1, 2002.

This program is funded primarily by those persons engaged in the production and feeding of lambs in the amount of one-half cent (\$.005) per pound when live lambs are sold. For purposes of this program, the term “lamb” as defined in the Order means, “any ovine animal of any age, including ewes and rams.”

First handlers, which means the packer or other person who buys or takes possession of lambs from a producer or feeder for slaughter, including custom slaughter, are assessed an additional \$.30 cents per head purchased for slaughter or slaughtered by such first handler pursuant to a custom slaughter arrangement. Each
