SUPPLEMENTARY INFORMATION:

I. Abstract

The U.S. Census Bureau plans to request an extension of the current Office of Management and Budget (OMB) clearance of the Manufacturers' Shipments, Inventories and Orders (M3) survey. The Manufacturers' Shipments, Inventories, and Orders (M3) survey requests data from domestic manufacturers on form M–3 (SD), which will be mailed at the end of each month. Data requested are shipments, new orders, unfilled orders, total inventory, materials and supplies, work-in-process, and finished goods. It is currently the only survey that provides broad-based monthly statistical data on the economic conditions in the domestic manufacturing sector.

The M3 survey is designed to measure current industrial activity and to provide an indication of future production commitments. The value of shipments measures the value of goods delivered during the month by domestic manufacturers. Estimates of new orders serve as an indicator of future production commitments and represent the current sales value of new orders received during the month, net of cancellations. Substantial accumulation or depletion of unfilled orders measures excess or deficient demand for manufactured products. The level of inventories, especially in relation to shipments, is frequently used to monitor the business cycle.

We do not plan any changes to the M–3 (SD) form. The estimated total annual burden hours have increased from 16,800 to 17,200 due to an increase in the number of respondents.

II. Method of Collection

Respondents submit data on form M–3 (SD) via mail, facsimile machine, Touchtone Data Entry (TDE), or via the Internet. Analysts call respondents who usually report, to obtain data in time for preparing the monthly estimates.

III. Data

OMB Control Number: 0607–0008.

Form Number: M–3 (SD).

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 4,300.

Estimated Total Annual Cost: \$424,324.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C. Sections 131 and 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Annual Surveys in the Manufacturing Area

AGENCY: Bureau of the Census, Commerce.

ACTION: Notice of determination.

SUMMARY: The Bureau of the Census (Census Bureau) is conducting the 2008 Annual Surveys in the Manufacturing Area. The 2008 Annual Surveys consist of the Current Industrial Reports surveys, the Annual Survey of Manufactures, and the Business Research and Development (R&D) and Innovation Survey. We have determined that annual data collected from these surveys are needed to aid the efficient performance of essential governmental functions and have significant application to the needs of the public and industry. The data derived from these surveys, most of which have been conducted for many years, are not publicly available from non-governmental or other governmental sources.

ADDRESSES: The Census Bureau will furnish report forms to organizations included in each survey. Additional copies of the surveys are available upon written request to the Director, U.S. Census Bureau, Washington, DC 20233–0101.

FOR FURTHER INFORMATION CONTACT:

Thomas E. Zabelsky, Chief, Manufacturing and Construction Division, on (301) 763–4598.

SUPPLEMENTARY INFORMATION: The Census Bureau is authorized to conduct mandatory surveys necessary to furnish current data on the subjects covered by the major censuses authorized by Title 13, United States Code (U.S.C.), Sections 61, 81, 131, 182, 193, 224, and 225.

These surveys will provide continuing and timely national statistical data on manufacturing for the period between economic censuses. The data collected in the surveys will be within the general scope and nature of those inquiries covered in the economic censuses. The next economic censuses will be conducted for the year 2012.

Annual Survey of Manufactures

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, capital expenditures, cost of materials consumed, supplemental labor costs, and so forth. This survey, conducted on a sample basis, covers all manufacturing industries, including data on plants under construction but not yet in operation.

Business R&D and Innovation Survey

The Business R&D and Innovation Survey (BRDIS) measures spending on research and development activities in U.S. businesses. This survey replaces the Survey of Industrial Research and Development that has been collected since the 1950's. The BRDIS will collect global as well as domestic spending information, more detailed information about the R&D workforce, and information regarding innovation and intellectual property from U.S. businesses. The Census Bureau collects and compiles this information in accordance with a joint project agreement between the National Science Foundation (NSF) and the Census Bureau. The NSF publishes the results in its publication series. All data items are collected on a mandatory basis under the authority of Title 13, U.S.C.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C., Chapter 35, the OMB approved the 2008 Annual Surveys under the following OMB control numbers: Current Industrial Reports—0607-0476; Annual Survey of Manufactures—0607-0449; and Business R&D and Innovation Survey—0607-0912.

Based upon the foregoing, I have directed that the Annual Surveys in the Manufacturing Area be conducted for the purpose of collecting these data.
