SUPPLEMENTARY INFORMATION: Searchlight Wind Energy, LLC, has submitted an application for the construction, operation, maintenance, and termination of a wind energy generation site. The proposed project would consist of 156 wind turbine generators and related rights-of-way appurtenances, including a substation administered by the Western Area Power Administration east of Searchlight, Nevada. The proposed wind energy project would produce approximately 359 megawatts of electricity. The proposed project site will be located on approximately 24,383 acres of public lands surrounding the town of Searchlight, Nevada.

Issues that are anticipated to be addressed in this EIS include visual impacts, avian impacts, socioeconomic impacts, electrical transmission capacity, and cumulative impacts.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Federal, State, and local agencies, as well as individuals or organizations that may be interested in or affected by the BLM's decision on this project are invited to participate in the scoping process and, if eligible, may request or be requested by the BLM to participate as a cooperating agency.
