### Annual Survey of Manufactures

The Annual Survey of Manufactures collects industry statistics, such as total value of shipments, employment, payroll, workers' hours, capital expenditures, cost of materials consumed, supplemental labor costs, and so forth. This survey, conducted on a sample basis, covers all manufacturing industries, including data on plants under construction but not yet in operation.

### Business R&D and Innovation Survey

The Business R&D and Innovation Survey (BRDIS) measures spending on research and development activities in U.S. businesses. This survey replaces the Survey of Industrial Research and Development that has been collected since the 1950's. The BRDIS will collect global as well as domestic spending information, more detailed information about the R&D workforce, and information regarding innovation and intellectual property from U.S. businesses. The Census Bureau collects and compiles this information in accordance with a joint project agreement between the National Science Foundation (NSF) and the Census Bureau. The NSF publishes the results in its publication series. All data items are collected on a mandatory basis under the authority of Title 13, U.S.C.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current, valid Office of Management and Budget (OMB) control number. In accordance with the PRA, 44 U.S.C., Chapter 35, the OMB approved the 2008 Annual Surveys under the following OMB control numbers: Current Industrial Reports—0607-0476; Annual Survey of Manufactures—0607-0449; and Business R&D and Innovation Survey—0607-0912.

Based upon the foregoing, I have directed that the Annual Surveys in the Manufacturing Area be conducted for the purpose of collecting these data.

Dated: December 10, 2008.

### Chlorinated Isocyanurates from Spain: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** December 16, 2008.

**FOR FURTHER INFORMATION CONTACT:** Scott Lindsay, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-0780.

#### SUPPLEMENTARY INFORMATION:

#### Background

On July 10, 2008, the Department of Commerce ("the Department") published the preliminary results of the antidumping duty administrative review of chlorinated isocyanurates from Spain, covering the period June 1, 2006, through May 31, 2007. See *Chlorinated Isocyanurates from Spain: Preliminary Results of Antidumping Duty Administrative Review*, 73 FR 39650 (July 10, 2008). On November 10, 2008, the Department extended the due date for this administrative review by 33 days, until December 10, 2008. See *Chlorinated Isocyanurates from Spain: Extension of Time Limit for Final Results of Antidumping Duty Administrative Review*, 73 FR 66594 (November 10, 2008).

#### Extension of Time Limits for Final Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("Act"), and 19 CFR 351.213(h)(1), the Department shall issue the final results of an administrative review within 120 days after the date on which the notice of the preliminary results was published in the **Federal Register**. See section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(1). However, if the Department determines that it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2) allow the Department to extend the 120-day period to 180 days.

The Department finds that it is not practicable to complete the review within the current deadline due to further analysis that is required in this case. In particular, the Department

needs additional time to examine the parties' arguments regarding Aragonesas Industrias y Energia S.A.'s reported levels of trade. Therefore, in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), the Department is extending the deadline for the final results of review, by an additional eight days, to 161 days from the date on which the notice of the preliminary results was published. The final results will now be due no later than December 18, 2008.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: December 10, 2008.

**Stephen J. Claeys,**

*Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.*

#### Pure Magnesium from the People's Republic of China: Final Results of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** On June 9, 2008, the Department published its preliminary results in the antidumping duty administrative review of pure magnesium from the PRC.<sup>1</sup> The period of review ("POR") for the administrative review is May 1, 2006, through April 30, 2007. We have determined that both mandatory respondents, Shanxi Datuhe Coke & Chemicals, Co., Ltd. ("Datuhe") and Tianjin Magnesium International Co., Ltd. ("TMI"), made sales in the United States at prices below normal value ("NV"). There are no other respondents covered by this review. We invited interested parties to comment on our preliminary results in this review. Based on our analysis of the comments we received in the administrative review, we made certain changes to our calculations for both mandatory respondents. The final dumping margins for this review are listed in the "Final Results Margins" section below.

**EFFECTIVE DATE:** December 16, 2008.

**FOR FURTHER INFORMATION CONTACT:** Laurel LaCivita or Katharine Huang,

AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4243 or (202) 482-1271, respectively.

#### Background

The Department published its preliminary results on June 9, 2008.<sup>2</sup> We invited parties to comment on the *Preliminary Results*. We received comments from Petitioner<sup>3</sup>, Datuhe and TMI. Interested parties submitted case and rebuttal briefs on July 17 and July 23, 2008, respectively. On September 29, 2008, the Department extended the deadline for the final results of review to December 8, 2008.<sup>4</sup> We held a hearing on October 30, 2008, in which all interested parties participated. We issued a supplemental questionnaire to TMI on November 17, 2008, requesting that it document the amount of by-products sold as reported in its section D response. TMI responded to the Department's request on November 20, 2008. On November 26, 2008, Petitioner provided comments on TMI's November 20, 2008, submission.

#### Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties in this review are addressed in the memorandum from Stephen J. Claeys, Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to David M. Spooner, Assistant Secretary for Import Administration, "Issues and Decision Memorandum for the Final Results of the Antidumping Duty Administrative Review and New Shipper Review of Pure Magnesium from the People's Republic of China," dated December 8, 2008, which is hereby adopted by this notice ("Issues and Decision Memorandum"). A list of the issues which parties raised and to which we respond in the Issues and Decision Memorandum is attached to this notice as an Appendix. The Issues and Decision Memorandum is a public document and is on file in the Central Records Unit ("CRU"), Main Commerce Building, Room 1117, and is accessible on the Web at <http://ia.ita.doc.gov/frn/>. The paper copy and electronic version of the memorandum are identical in content.

<sup>2</sup> See *Preliminary Results*.

<sup>4</sup> See *Pure Magnesium From the People's Republic of China: Extension of Time for the Final Results of the Antidumping Duty Administrative Review*, 73 FR 56553 (September 29, 2008).

#### Period of Review

The POR is May 1, 2006, through April 30, 2007.

#### Scope of the Order

Merchandise covered by this order is pure magnesium regardless of chemistry, form or size, unless expressly excluded from the scope of this order. Pure magnesium is a metal or alloy containing by weight primarily the element magnesium and produced by decomposing raw materials into magnesium metal. Pure primary magnesium is used primarily as a chemical in the aluminum alloying, desulfurization, and chemical reduction industries. In addition, pure magnesium is used as an input in producing magnesium alloy. Pure magnesium encompasses products (including, but not limited to, butt ends, stubs, crowns and crystals) with the following primary magnesium contents: (1) Products that contain at least 99.95% primary magnesium, by weight (generally referred to as "ultra pure" magnesium); (2) Products that contain less than 99.95% but not less than 99.8% primary magnesium, by weight (generally referred to as "pure" magnesium); and (3) Products that contain 50% or greater, but less than 99.8% primary magnesium, by weight, and that do not conform to ASTM specifications for alloy magnesium (generally referred to as "off-specification pure" magnesium).

"Off-specification pure" magnesium is pure primary magnesium containing magnesium scrap, secondary magnesium, oxidized magnesium or impurities (whether or not intentionally added) that cause the primary magnesium content to fall below 99.8% by weight. It generally does not contain, individually or in combination, 1.5% or more, by weight, of the following alloying elements: aluminum, manganese, zinc, silicon, thorium, zirconium and rare earths.

Excluded from the scope of this order are alloy primary magnesium (that meets specifications for alloy magnesium), primary magnesium anodes, granular primary magnesium (including turnings, chips and powder) having a maximum physical dimension (*i.e.*, length or diameter) of one inch or less, secondary magnesium (which has pure primary magnesium content of less than 50% by weight), and remelted magnesium whose pure primary magnesium content is less than 50% by weight.

Pure magnesium products covered by this order are currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) subheadings

<sup>1</sup> See *Pure Magnesium from the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review*, 73 FR 32549 (June 9, 2008) ("*Preliminary Results*").
