

important to their culture and religious heritage.

- Evaluate cultural and paleontological resources for possible interpretation, preservation, conservation and enhancement.
- Management decisions will consider a reasonable range of alternatives that focus on the relative values of resources and ensure responsiveness to the issues. Management prescriptions will reflect multiple use resource principles.
- Address the social and economic impacts of the alternatives.
- Include management direction for public lands managed by BLM.
- Provide for public safety and welfare.

The areas described aggregate 287 acres in Utah and Wasatch Counties.

3. At 10 a.m. on January 20, 2009, the lands described in Paragraph 1 shall be opened to such forms of disposition as may by law be made of National Forest System lands, including location and entry under the United States mining laws and the lands described in Paragraph 2 shall be opened to location and entry under the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. Appropriation of lands described in this order under the general mining laws prior to the date and time of restoration is unauthorized.

Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (2000), shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

Authority: 43 CFR 2091.6.

Dated: December 11, 2008.

Selma Sierra,

State Director.
