

Docket Numbers: OA09–13–000.

Applicants: Langdon Wind, LLC.

Description: Langdon Wind, LLC's Petition for Waiver of Commission Rules.

Filed Date: 12/16/2008.

Accession Number: 20081216–5053.

Comment Date: 5 p.m. Eastern Time on Tuesday, January 06, 2009.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or

call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF08-31-000; Docket No. PF08-32-000]

Florida Gas Transmission Company; Transcontinental Gas Pipe Line Corporation; Notice of Intent To Prepare an Environmental Assessment for the Proposed Mobile Bay Lateral Extension Project and the Pascagoula Expansion Project and Request for Comments on Environmental Issues

December 18, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the construction and operation of facilities proposed by Florida Gas Transmission Company's (FGT) Mobile Bay Lateral Extension Project in Mobile County, Alabama and Transcontinental Gas Pipe Line Corporation's (Transco) and FGT's Pascagoula Expansion Project in Jackson County, Mississippi and Mobile County, Alabama.

This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the project. Your

input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on January 15, 2009.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; environmental and public interest groups; Native American tribes; other interested parties in this proceeding; and local libraries and newspapers. We encourage government representatives to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The pipeline company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" was attached to the project notice Transco and/or FGT provided to landowners. This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (<http://www.ferc.gov>).

Summary of the Proposed Projects

FGT's Mobile Bay Lateral Extension Project (Mobile Bay Project) would be located in Mobile County, Alabama. The existing Mobile Bay Lateral extends from FGT's mainlines near Citronelle, Alabama, to FGT's Compressor Station 44 (CS 44) in Mobile Bay, Alabama. FGT is requesting authorization to construct, own, and operate the facilities necessary to provide incremental firm transportation capacity of 342,610 million British thermal units per day (MMBtu/d) of natural gas from the proposed Gulf LNG Energy, LLC (Gulf LNG) Terminal Facility in Pascagoula, Mississippi to FGT's existing Mobile Bay Lateral. The new infrastructure would allow FGT to connect regassified liquefied natural gas (LNG) supply in south Alabama to the existing FGT system.
