

Dated: December 24, 2008.

C. Stephen Allred,

Assistant Secretary, Land and Minerals Management.

■ Accordingly, for the reasons stated in the preamble and under the authorities stated below, the BLM amends 43 CFR part 3500 as set forth below.

PART 3500—LEASING OF SOLID MINERALS OTHER THAN COAL AND OIL SHALE

■ 1. The authority citation for part 3500 continues to read as follows:

Authority: 5 U.S.C. 552; 30 U.S.C. 189 and 192c; 43 U.S.C. 1733 and 1740; and sec. 402, Reorganization Plan No. 3 of 1946 (5 U.S.C. Appendix).

Subpart 3501—Leasing of Solid Minerals Other Than Coal and Oil Shale—General

■ 2. Amend § 3501.10 by revising paragraph (f) to read as follows:

§ 3501.10 What types of mineral use authorizations can I get under these rules?

* * * * *

(f) “Lease modifications” add adjacent acreage to a Federal lease. The acreage to be added:

(1) Contains known deposits of the same mineral that can be mined only as part of the mining operation on the original Federal lease; or

(2) Has the following characteristics—

(i) Does not contain known deposits of the same mineral;

(ii) Will be used for surface activities that are necessary in furtherance of recovery of the mineral deposit on the original Federal lease; and

(iii) Had the acreage been included in the original Federal lease at the time of the Federal lease’s issuance, the original Federal lease would have been reasonably compact.

* * * * *

§ 3501.12 What must I do to obtain a lease modification or fringe acreage lease?

* * * * *

(b) Include a non-refundable filing fee as provided in § 3000.12, Table 1, of this chapter (the fee may be found under “Leasing of Solid Minerals Other Than Coal and Oil Shale (Part 3500)”). You must also make an advance rental payment in accordance with the rental rate for the mineral commodity you are seeking. If you want to modify an existing lease, the BLM will base the rental payment on the rate in effect for the lease being modified in accordance with § 3504.15.

(c) Your fringe acreage lease application must:

(1) Show the serial number of the lease if the lands specified in your application adjoin an existing Federal lease;

(2) Contain a complete and accurate description of the lands desired;

(3) Show that the mineral deposit specified in your application extends from your adjoining lease or from adjoining private lands you own or control; and

(4) Include proof that you own or control the mineral deposit in the adjoining lands if they are not under a Federal lease.

(d) Your lease modification application must:

(1) Show the serial number of your Federal lease that you seek to modify;

(2) Contain a complete and accurate description of the lands desired that adjoin the Federal lease you seek to modify; and

(3) Show that—

(i) The adjoining acreage to be added contains known deposits of the same mineral deposit that can be mined only as part of the mining operations on the original Federal lease; or

(ii) As an alternative, show that—

(A) The acreage to be added does not contain known deposits of the same mineral deposit; and

(B) The adjoining acreage will be used for surface activities that are necessary for the recovery of the mineral deposit on the original Federal lease, and

(C) Had the acreage been included in the original Federal lease at the time of that lease’s issuance, the original Federal lease would have been reasonably compact.

■ 4. Amend § 3510.15 by revising paragraph (e), redesignating paragraphs (f) and (g) as paragraphs (g) and (h), respectively, by adding new paragraph (f), and by revising redesignated paragraph (h), to read as follows:

§ 3510.15 What will the BLM do with my application?

* * * * *

(e) The lands for which you applied for a fringe acreage lease lack sufficient reserves of the mineral resource to warrant independent development;

(f)(1) The lands for which you applied for a lease modification contain known deposits of the same mineral deposit that can be mined only as part of the mining operations on the original Federal lease; or

(2)(i) The acreage to be added does not contain known deposits of the same mineral; and

(ii) The acreage to be added will be used for surface activities that are

necessary for the recovery of the mineral deposit on the original Federal lease; and

(iii) Had the acreage added by the modification been included in the original Federal lease at the time of that lease’s issuance, the original Federal lease would have been reasonably compact.

* * * * *

(h) You meet the qualification requirements for holding a lease described in subpart 3502 of this chapter and the new or modified lease will not cause you to exceed the acreage limitations described in § 3503.37.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket No. FEMA–8055]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date.

DATES: *Effective Date:* The effective date of each community’s scheduled suspension is the third date (“Susp.”) listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact David Stearrett, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646–2953.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage as authorized under the NFIP, 42 U.S.C. 4001 *et seq.*; unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register**.

In addition, FEMA has identified the Special Flood Hazard Areas (SFHAs) in these communities by publishing a Flood Insurance Rate Map (FIRM). The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford

Disaster Relief and Emergency Assistance Act not in connection with a flood) may legally be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year, on FEMA's initial flood insurance map of the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body

adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

SUPPLEMENTARY INFORMATION:

I. Introduction

The Commonwealth of Virginia petitioned NHTSA to approve the Commonwealth's requirements on the disclosure of motor vehicle mileage when motor vehicles are transferred, which would apply in lieu of certain federal requirements, under 49 U.S.C. 32701, 32705(d). As described in detail in Section III below, Virginia's program will provide for the transfer of a vehicle's title with odometer disclosure information electronically, instead of through the execution of a paper title that is then submitted to the state for the issuance of a title to the new owner, for an in-state transaction where there is no security interest in the vehicle.
