[Docket No. CP08-96-001]

Arlington Storage Company, LLC; Notice of Motion and Request for Shortened Response Time

December 31, 2008.

Take notice that on December 30, 2008, Arlington Storage Company, LLC (ASC), Two Brush Creek Boulevard, Kansas City, Missouri 64112, filed a motion to withdraw its Exhibit I, which contained executed precedent agreements, submitted on May 19, 2008 with its application in CP08-96-000. Alternatively, in the event withdrawal of the filing of Exhibit I is not practicable, ASC requests rehearing of Ordering Paragraph (E) of the Commission's December 18 Order¹, all as more fully set forth in the application which is on file with the Commission and open for public inspection. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

ASC avers that the filing of such precedent agreements was not material to the Commission's approval of the Project, pursuant to section 7(c) of the Natural Gas Act. If the withdrawal is not practicable, ASC, on rehearing, asks that the condition in Ordering Paragraph (E) requiring execution of firm service agreements prior to the start of construction be rescinded. Additionally, ASC requests a shortened response period, and that the Commission act no later than January 16th, 2009 on its motion or request for rehearing.

Any questions regarding the application are to be directed to William R. Moler, Senior Vice President, Midstream Operations, Arlington Storage Company, Two Brush Creek Boulevard, Kansas City, Missouri 64112; phone number (816) 329-5344 or by e-mail at bmoler@inergyservices.com.

Western Area Power Administration

Construction and Operation of the Proposed Transmission Agency of Northern California Transmission Project, California

AGENCY: Western Area Power Administration, DOE.

ACTION: Advance Notice of Intent to Prepare an Environmental Impact Statement/Environmental Impact Report; Notice of Floodplain and Wetlands Involvement.

SUMMARY: The Western Area Power Administration (Western), an agency of the U.S. Department of Energy (DOE), intends to prepare a joint environmental impact statement/environmental impact report (EIS/EIR) for the construction and operation of the proposed Transmission Agency of Northern California (TANC) Transmission Project (Project) in California. Western is issuing this Advance Notice to inform the public and interested parties early about the proposed Project. At a later date, Western plans to issue a formal Notice of Intent (NOI) and conduct a public scoping process, during which Western will invite the public to comment on the scope, proposed action, alternatives, and other issues to be addressed in the EIS/EIR.

The EIS/EIR will address the construction, maintenance, and operation of the proposed Project, which would include building and upgrading over 500 miles of 230-kilovolt (kV) and 500-kV transmission lines and associated equipment and facilities in northern California. Portions of the proposed Project may affect floodplains and wetlands in the area. Western will hold public scoping meetings in several locations near the Project area during the public scoping period, anticipated to begin in early 2009. At the scoping meetings, Western will share information and receive comments and suggestions on the scope of the EIS/EIR.

FOR FURTHER INFORMATION CONTACT: For further information about the project or the EIS/EIR process, contact Mr. David Young, National Environmental Policy Act (NEPA) Document Manager, Western Area Power Administration, Sierra Nevada Region, 114 Parkshore Drive, Folsom, CA 95630, telephone
