(2) For the purpose of paragraph (i)(1) of this section, transit means direct, non-stop progression through the MPA. Fishing gear appropriately stowed means—

(i) A longline may be left on the drum if all gangions and hooks are disconnected and stowed below deck. Hooks cannot be baited. All buoys must be disconnected from the gear; however, buoys may remain on deck.

(ii) A trawl or try net may remain on deck, but trawl doors must be disconnected from such net and must be secured.

(iii) A gillnet, stab net, or trammel net must be left on the drum. Any additional such nets not attached to the drum must be stowed below deck.

(iv) Terminal gear (i.e., hook, leader, sinker, flasher, or bait) used with an automatic reel, bandit gear, buoy gear, handline, or rod and reel must be disconnected and stowed separately from such fishing gear. A rod and reel must be removed from the rod holder and stowed securely on or below deck.

(v) A crustacean trap, golden crab trap, or sea bass pot cannot be baited. All buoys must be disconnected from the gear; however, buoys may remain on deck.

Pacific Halibut Fisheries; Bering Sea and Aleutian Islands King and Tanner Crab Fisheries; Groundfish Fisheries of the Exclusive Economic Zone Off Alaska; Individual Fishing Quota Program; Western Alaska Community Development Quota Program; Recordkeeping and Reporting; Permits; Correction

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule, correction.

SUMMARY: This action corrects the regulatory text of a final rule published on December 15, 2008 (73 FR 76136).

Among its measures, the final rule will implement new recordkeeping and reporting requirements; a new electronic groundfish catch reporting system, the Interagency Electronic Reporting System, and its data entry component, eLandings. This action is intended to promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) and other applicable law.

DATES: Effective January 14, 2009.

SUPPLEMENTARY INFORMATION:

Background

NMFS manages the U.S. groundfish fisheries of the exclusive economic zone off Alaska under the Fishery Management Plan for Groundfish of the Gulf of Alaska and the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (collectively, FMPs). General provisions governing fishing by U.S. vessels in accordance with the FMPs appear at subpart H of 50 CFR part 600.

Need for Corrections

In FR Doc. E8-29625, published in the **Federal Register** on December 15, 2008 (73 FR 76136), the following errors occur in §§ 679.4 and 679.5. This document corrects those errors.

NMFS is correcting the heading for the table in § 679.4(a)(1) by removing the phrase “If program permit or card type is:” and replacing it with “If program permit type is:”. This correction is necessary because, as described in the supplemental proposed rule, NMFS no longer issues permit cards.

Section 679.4(e)(2) was revised in the final rule, but NMFS inadvertently deleted the phrase “legible copy of” a permit and replaced it with “copy of” a permit. In a final rule published May 19, 2008 (73 FR 28733), NMFS no longer required an original permit onboard a vessel or onsite at a shoreside facility, but required a “legible copy” of a permit. However, NMFS inadvertently omitted the word “legible” in the supplemental proposed rule.

Section 679.5(c)(1)(vi)(B)(3) is an in-text table and describes the distribution of the yellow logsheet of the daily cumulative production logbooks (DCPLs). This correction removes check marks from the columns for catcher/processor longline or pot gear, catcher/processor trawl gear, and motherships that were mistakenly included in the supplemental proposed rule and the
