Persons interested in being placed on a mailing list for future NPRMs should contact the FAA's Office of Rulemaking, (202) 267-9677, to request a copy of Advisory Circular No. 11-2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

This action proposes to amend Title 14, Code of Federal Regulations (14 CFR), Part 71 by adding additional Class E airspace for SIAPs operations at W.K. Kellogg Airport, Battle Creek, MI. The area would be depicted on appropriate aeronautical charts.

Class E airspace areas are published in Paragraph 6005 of FAA Order 7400.9S, dated October 3, 2008, and

effective October 31, 2008, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the U.S. Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would add additional controlled airspace at W.K. Kellogg Airport, Battle Creek, MI.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 79

[CG Docket No. 05-231; FCC 08-255]

Closed Captioning of Video Programming

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Commission seeks comment on the application of the closed captioning rules to digital broadcasting, specifically to broadcasters that choose to use their digital allotment to multicast several streams of programming. The Commission's rules exempt video programming channels that produced annual gross revenues of less than \$3 million during the previous calendar year from the Commission's closed captioning obligations. The Commission did not determine what constitutes a "channel" for purposes of satisfying this self-implementing exemption. The Commission therefore seeks comment on issues related to, for purposes of this exemption, whether each programming stream on a multicast signal constitutes a separate channel, or whether the broadcaster's entire operations attributable to its digital allotment should be considered one channel.

DATES: Comments are due on or before February 12, 2009. Reply comments are due on or before February 27, 2009.

ADDRESSES: Interested parties may submit comments identified by CG Docket No. 05-231, by any of the following methods:

For ECFS filers, in completing the transmittal screen, filers should include their full name, U.S. Postal Service mailing address, and CG Docket No. 05-231. Parties also may submit an electronic comment by Internet e-mail.
