SUPPLEMENTARY INFORMATION:

Background
Black abalone was added to the National Marine Fisheries Service’s (NMFS’) Candidate Species List on June 23, 1999 (64 FR 33466), and transferred to the NMFS’ Species of Concern List on April 15, 2004 (69 FR 9975). We initiated an informal ESA status review of black abalone on July 15, 2003, and formally announced initiation of a status review on October 17, 2006 (71 FR 61021), at the same time soliciting information from the public on the status of and threats facing black abalone. On December 27, 2006, we received a petition from the Center for Biological Diversity (CBD) to list black abalone as either an endangered or threatened species under the ESA and to designate critical habitat for the species concurrently with any listing.
