

locations to be determined. This draft Plan will serve as the basis for the development of the updated National Vaccine Plan and based on this range of input, indicators of measurable outcomes will be determined and priorities will be presented. In addition, an implementation plan will be drafted that identifies specific actions that will be undertaken by government and other vaccine and immunization enterprise stakeholders to achieve the objectives and strategies in the plan and milestones will be established that will allow progress to be measured. The draft Plan has a ten-year horizon, and thereby balances a strategic vision, which requires development and implementation of new initiatives, with the recognition that changing circumstances and new opportunities and challenges will occur over the next decade. The ten-year horizon also allows incorporation of the HealthyPeople 2020 objectives once those are established by the Department of Health and Human Services (see <http://www.healthypeople.gov>). Annual monitoring of progress and a mid-course review will promote both accountability and flexibility. The updated National Vaccine Plan is expected to be completed by early 2010.

Through this Request for Information, HHS is seeking broad comment from stakeholders and the general public. Comments received will be available for public viewing and will be summarized in an open meeting on February 6, 2009, to the NVAC in Washington, DC. If you wish to attend the meeting in person or by audioconference, please reply to nvpo@hhs.gov, or to 202-690-5566.
