Needs and Uses: This collection will be submitted to OMB after the 60-day comment period as a revision to an existing collection. In April 2008, the Commission adopted an order that capped total annual competitive eligible telecommunications carrier (ETC) universal service high-cost support for each state at the level of support that competitive ETCs in that state were eligible to receive during March 2008 on an annualized basis. The Commission also adopted two limited exceptions from the application of the interim cap. First, a competitive ETC will not be subject to the interim cap to the extent it files cost data demonstrating that its costs meet the support threshold in the same manner as the incumbent local exchange carrier. Second, the Commission also created a limited exception for competitive ETCs serving tribal lands or Alaska Native regions. *High-Cost Universal Service Support; Federal-State Joint Board on Universal Service*, WC Docket No. 05–337, CC Docket No. 96–45, FCC 08–122. The Commission will not amend FCC Form 525 in order to incorporate the information requests related to the two limited exceptions to the interim cap on high-cost support. The Commission has reviewed the information collection and has revised the estimates that are detailed in the supporting statement.
