SUPPLEMENTARY INFORMATION:

I. Background

Section 101(a) of EESA requires the Secretary of the Treasury to establish a Troubled Asset Relief Program (TARP) to “purchase, and to make and fund commitments to purchase, troubled assets from any financial institution, on such terms and conditions as are determined by the Secretary, and in accordance with this Act and policies and procedures developed and published by the Secretary.” Section 120 of EESA provides that the TARP authorities generally terminate on December 31, 2009, unless extended upon certification by the Secretary of the Treasury to Congress, but no later than two years from the date of enactment (October 3, 2008).

Section 108 of EESA authorizes the Secretary to issue regulations or guidelines necessary to address and manage or to prohibit conflicts of interest that may arise in connection with the administration and execution of the EESA authorities. On October 6, 2008, Treasury issued interim guidelines for potential conflicts of interest related to the authorities granted under EESA. This interim rule implements the guidelines by addressing conflicts that may arise during the selection of individuals or entities seeking a contract or financial agency agreement with the Treasury (retained entities), particularly those involved in the acquisition, valuation, management, and disposition of troubled assets. The interim rule also addresses conflicts and other matters that may arise in the course of those services. The interim rule does not address post-employment restrictions on Treasury employees, which we believe are already adequately covered by existing law.

II. This Interim Rule

The Department is promulgating this interim rule in order to implement the interim guidance released on October 6, 2008. The procedures in this rule outline the process for reviewing and addressing actual or potential conflicts of interest among retained entities performing services in conjunction with EESA. The procedures set forth in this interim rule are effective immediately. Upon careful consideration of public comments, a final rule will be issued.

Conflicts of interest may arise under EESA in a variety of situations, such as when retained entities perform similar work for Treasury and private clients. In these situations, retained entities may find that their duty to private clients impairs their objectivity when advising Treasury, or their judgment about the proper use of nonpublic information. Conflicts may also arise from the personal interests of individuals employed by retained entities. To address the potential for organizational and personal conflicts of interest, it may be necessary to restrict the activities of retained entities and key employees, to limit the dissemination of information, and to impose monitoring and reporting requirements. Treasury imposes these measures through its contracts and financial agent agreements, as well as through this interim rule. This interim rule does not substitute any provisions of the Federal Acquisition Regulation and, to the extent the Federal Acquisition Regulation applies to any contracts Treasury has with a retained
