Background

The FHWA, in cooperation with the District of Columbia Department of Transportation (DDOT) intends to adopt those portions of an approved Final EIS, related to the specific transportation aspects, for consolidation of the Department of Homeland Security (DHS) Headquarters offices located in the District of Columbia. The FHWA, in consultation with the DDOT, will determine if additional documentation will be provided as a supplement to this Final EIS prior to issuing a decision document. The Final EIS was prepared by the General Services Administration, National Capital Region. The FHWA, DDOT and other federal agencies are cooperating agencies for this Final EIS. The Revised Notice of Intent for the EIS appeared in the FR, Volume 72, Number 124, June 28, 2007. The project consists of consolidation of the DHS Headquarters at the St. Elizabeths Campus in Southeast Washington, DC. DHS requested that GSA fulfill its requirement of collocating 4.5 million gross square feet of office; with parking, the project would accommodate up to 6.4 million gross square feet of development and adaptive re-use. The EIS considered the social, environmental, and economic impacts of the project. The No-Action alternative, three campus redevelopment alternatives, four interchange alternatives (I-295/Malcolm X Interchange) and a transportation no-build alternative were considered in the Final EIS.

Agency Action

The FHWA action subject to the requirements of the National Environmental Policy Act for this project is approval of modifications to the I-295/Malcolm X Interchange, and a related access road. Approval of modifications to the interchange may have the potential to impact other transportation infrastructure in the District of Columbia. The GSA preferred alternative is identified in the Final EIS. In accordance with 49 U.S.C. 303, the

FHWA has also prepared and coordinated the distribution of a Section 4(f) Evaluation for the project. The Evaluation assesses the reasonable transportation alternatives subject to Section 4(f) to determine if they are the only feasible and prudent alternatives pursuant to Section 4(f). In addition, FHWA will prepare its own Record of Decision for the Selected Alternative in accordance with 40 CFR 1505.2.

I. General Program Information

A. Authority

Section 3021 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users of 2005 (SAFETEA-LU), as amended established the Paul S. Sarbanes Transit in Parks Program (Transit in Parks Program) (49 U.S.C. 5320). SAFETEA-LU authorized \$96.9 million in funding for the program for FYs 2006 through 2009. SAFETEA-LU authorized \$26.9 million for FY 2009. Availability of

funding is subject to congressional appropriations, which have not yet been finalized for FY 2009. No one project may receive more than 25 percent of available funds.

B. Background

Congestion in and around parks and public lands causes traffic delays and noise and air pollution that substantially detract from the visitor's experience and the protection of natural resources. In August 2001, the Department of Transportation (DOT) and DOI published a comprehensive study of alternative transportation needs in national parks and related Federal lands. The study identified significant alternative transportation needs at sites managed by the National Park Service, the Bureau of Land Management, and the U.S. Fish and Wildlife Service. Additionally, a supplement to this report identified Forest Service sites that would benefit from such services.

Section 3021 of SAFETEA-LU (49 U.S.C. 5320) addresses these needs by establishing a new program to fund alternative transportation projects in national parks and other Federal lands. The goals of the program are to:

- Conserve natural, historical, and cultural resources;
- Reduce congestion and pollution;
- Improve visitor mobility and accessibility;
- Enhance visitor experience; and
- Ensure access to all, including persons with disabilities.

C. Eligible Applicants

(1) Federal land management agencies that manage an eligible area, including but not limited to the National Park Service, the Fish and Wildlife Service, the Bureau of Land Management, the Forest Service, and the Bureau of Reclamation; and

(2) State, tribal and local governments with jurisdiction over land in the vicinity of an eligible area, acting with the consent of a Federal land management agency, alone or in partnership with a Federal land management agency or other governmental or non-governmental participant. If the applicant is a State, tribal, or local government, a letter from the unit(s) of the Federal land management agency or agencies affected expressing support for the project should be submitted with the project proposal.

Note: An eligible area is any federally owned or managed park, refuge, or recreational area that is open to the general public, including a unit of the National Park System, a unit of the National Wildlife Refuge System, a recreational area managed
