

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) or to obtain a copy of the collection send an e-mail to PRA@fcc.gov and include the collection's OMB control number as shown in the **SUPPLEMENTARY INFORMATION** section below, or call Leslie F. Smith at (202) 418-0217.

SUPPLEMENTARY INFORMATION: *OMB Control Number:* 3060-0584.

Title: Administration of U.S. Certified Accounting Authorities in Maritime Mobile and Maritime Mobile-Satellite Radio Services, FCC Forms 44 and 45.

Form Number: FCC 44 and 45.

Type of Review: Extension without change of a currently approved collection.

Respondents: Businesses or other for-profit.

Number of Respondents and Responses: 25 respondents; 100 responses.

Estimated Time per Response: 1-3 hours.

Frequency of Response: Recordkeeping; On occasion, semi-annual, and annual reporting requirements; Third party disclosure.

Obligation To Respond: Mandatory, see 47 U.S.C. 154(i) and 303(r).

Total Annual Burden: 150 hours.

Annual Cost Burden: \$375,000.00.

Privacy Act Impact Assessment: No impacts.

Nature and Extent of Confidentiality: There is no need for confidentiality. However, respondents may request materials or information submitted to the Commission be withheld from public inspection under 47 CFR Section 0.459 of the FCC's rules.

Needs and Uses: The FCC has standards for accounting authorities in the maritime mobile and maritime-satellite radio services under 47 CFR part 3. The Commission uses these standards to determine the eligibility of applicants for certification as a U.S. accounting authority, to ensure compliance with the maritime mobile and maritime-satellite radio services, and to identify accounting authorities to the International Telecommunications Union (ITU). Respondents are entities seeking certification or those already certified to be accounting authorities.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

January 16, 2009.

SUMMARY: The Federal Communications Commissions (Commission or FCC), as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before March 27, 2009. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: You may submit your PRA comments to Nicholas F. Fraser, Office of Management and Budget, via Internet at *Nicholas_A_Fraser@omb.eop.gov* or via fax at (202) 395-5167 and to Cathy Williams, Federal Communications Commission, via Internet at *PRA@fcc.gov*. Include in the e-mail the OMB control number of the collection or if there is no OMB control number, the Title shown in the **SUPPLEMENTARY INFORMATION** section below. If you cannot submit your comment by e-mail contact the person listed below to make alternate arrangements.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection(s) send an e-mail

to *PRA@fcc.gov* or contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-XXXX.

Title: Cable Subscribership Survey.

Form Number: Not applicable.

Type of Review: New Information Collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government.

Number of Respondents: 6,600.

Number of Responses: 13,200.

Estimated Time per Response: 2 hours per response.

Frequency of Response: One time reporting requirement.

Total Annual Burden: 26,400 hours.

Total Annual Cost: \$1,320,000.

Obligation To Respond: Mandatory.

The statutory authority for this information collection is contained in section 612(g) of the Communications Act of 1934, as amended, 47 U.S.C. 532(g).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information. However, the Commission made special provisions for operators that would like to withhold their information from public inspection. Operators who wish to request that their information be withheld from public inspection must submit the request pursuant to 47 CFR 0.459 in a letter addressed to the Secretary, and state the fields to which the request applies. They also should provide a complete explanation of why such treatment is appropriate, pursuant to 47 CFR 0.459(c), as casual requests will not be considered.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Section 612(g) of the Communications Act, 47 CFR 532(g), states that: (1) "At such time as cable systems with 36 or more activated channels are available to 70 percent of households within the United States" and (2) "are subscribed to by 70 percent of the households to which such systems are available, the Commission may promulgate any additional rules necessary to provide diversity of information sources." Although there is no disagreement that the first prong of the 70/70 test has been met, the question of whether the second prong has been met is less clear. One data source that the Commission has traditionally relied on shows that the second prong of the 70/70 test has been met. However, other data sources do not demonstrate that the second prong has been met. The available data sources have some limitations because the reported cable penetration rates are not

calculated from a complete census of cable systems. The only way to accurately conclude that the 70/70 test has been met is to have the entire cable industry provide to the Commission the data for all cable systems. Specifically, we will require each cable operator to provide for 2006 and 2007 for each cable system on a zip code basis: (1) The total number of homes the cable operator currently passes; (2) the total number of homes the cable operator currently passes with 36 or more activated channels; (3) the total number of actual subscribers, including all subscribers in multiple dwelling units (MDUs); and (4) the total number of subscribers to systems with 36 or more activated channels. The submitted information will allow the Commission to calculate the 70/70 test for the entire universe of cable systems, which will be more accurate than relying on the available sample statistics.

A cable operator may certify to the Commission that it does not possess the requested information for calendar year 2006 and that it is not possible for the operator to compile such data for calendar year 2006. The Commission will provide cable operators that do not possess 2006 data with a certification form to be signed, dated, and returned to the Commission. This form will not impose any additional burden on cable operators.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Economic Analysis of the National Breast and Cervical Cancer Early Detection Program (NBCCEDP) (OMB No. 0920-0776 exp. 4/30/2009)—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCDDPH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC-funded National Breast and Cervical Cancer Early Detection Program (NBCCEDP) is the largest organized cancer screening program in the United States. The NBCCEDP provides critical breast and cervical cancer screening services to underserved women through grants to 50 states, the District of Columbia, 4 U.S. territories, and 13 American Indian/Alaska Native organizations. In the past decade, the NBCCEDP has provided over 7.8 million breast and cervical cancer screening and diagnostic exams to over 3.2 million low-income women. Women diagnosed with cancer through the program are eligible for Medicaid coverage through the Breast and Cervical Cancer Prevention and Treatment Act passed by Congress in 2000.

In 2008, CDC obtained OMB approval to collect one year of activity-based cost information from all 68 NBCCEDP grantees. With this revision request, CDC proposes to collect two additional, consecutive years of information and to implement a minor change to the data collection instrument, the Cost Assessment Tool (CAT), regarding screening activities supported through non-Federal funds. The additional information will allow CDC to calculate averages over time that reduce year-to-year fluctuations and provide better estimates of activity-based costs.

The information is being collected to support activity-based analysis of the costs and cost-effectiveness of the NBCCEDP. The information will be used to assess the costs of various program components, identify factors that impact average cost, perform cost-effectiveness analysis, and to develop a resource allocation tool for ensuring the most appropriate use of limited program resources. The information required to perform an activity-based cost analysis includes: staff and consultant salaries, screening costs, contracts and material costs, provider payments, in-kind contributions, administrative costs, allocation of funds, and staff time devoted to specific program activities. Data will be collected electronically.

NBCCEDP grantees currently report information on screening and diagnosis volumes (the effectiveness measures for the program) as part of the Minimum Data Elements (MDE) for the NBCCEDP (OMB 0920-0571, exp. 1/31/2010). Cost information to be collected through the CAT will complement information currently collected through the MDE project.

There are no costs to respondents other than their time. The total
