

1. Golden tilefish in the bottom longline and hook-and-line fisheries.

2. Black sea bass in the pot fishery. Currently, there is no limit to the number of pot tags issued to fishermen who target black sea bass or the number of pots that can be fished. Fishermen may be leaving large numbers of pots fishing for multiple days due to vessel or weather problems, and these pots could unnecessarily kill many black sea bass. The Council is further concerned that in the gag recreational fishery, fishermen in some areas could have an advantage and catch part of the allowable catch sooner than those in other areas.

Additionally, in Amendment 18 the Council may consider modifying the individual transferable quota (ITQ) program currently in place for the South Atlantic wreckfish fishery to conform with the Magnuson-Stevens Act requirements on holding excessive shares in a LAP program. Furthermore, the Magnuson-Stevens Act requires periodic reviews of LAP programs, and if needed, allows for modifications to meet the goals of the program.

Following publication of this NOI, the Council will conduct public scoping meetings to determine the range of issues to be addressed in the DEIS and the associated Amendment 18. A **Federal Register** notice will announce the availability of the DEIS associated with this amendment, as well as a 45-day public comment period, pursuant to regulations issued by the Council on Environmental Quality for implementing the National Environmental Policy Act and to NOAA's Administrative Order 216-6. The Council will consider public comments received on the DEIS in developing the final environmental impact statement (FEIS), and before voting to submit the final amendment to NMFS for Secretarial review, approval, and implementation. NMFS will announce in the **Federal Register** the availability of the final amendment and FEIS for public review during the Secretarial review period, and will consider all public comments prior to final agency action to approve, disapprove, or partially approve the final amendment.

Scoping Meetings, Times, and Locations

All meetings will begin at 3 p.m. In addition to Amendment 18, the Council intends to scope additional amendments at this series of meetings. Separate NOIs will be prepared for each amendment. The meetings will be physically accessible to people with disabilities. Requests for information packets or for sign language interpretation or other

auxiliary aids should be directed to the Council (see **FOR FURTHER INFORMATION CONTACT**).
