Mountain States Transmission Intertie, LLC; NorthWestern Corporation; Notice of Filing

January 22, 2009.

Take notice that on January 15, 2009, Mountain States Transmission Intertie, LLC (MSTI) and NorthWestern Corporation (NorthWestern) filed a Petition for Declaratory Order on Rate Treatments and Open Season for Transmission Export Project. MSTI and NorthWestern request the Commission to confirm that MSTI may charge negotiated rates for a proposed new high voltage transmission project to provide service from the NorthWestern system to southern Idaho, and that MSTI's proposal to give customers in NorthWestern's current MSTI service request queue a preference to the extent capacity is over-subscribed in the MSTI open season and to terminate the NorthWestern queue is not unduly discriminatory.

Enterprise Texas Pipeline, LLC; Notice of Motion for Bifurcation of Issues and Deferral of Review of Rate Proposal

January 22, 2009.

On January 14, 2009, Enterprise Texas Pipeline, LLC (Enterprise Texas) filed a request to defer review of its September 30, 2008 Petition for Rate Approval. It also requests that the Commission move forward on a separate track to complete its review of and ruling on all of the matters related to the Enterprise Texas Statement of Operating Conditions (SOC) that have been raised by intervenors in the above-captioned dockets and that are the subject of certain data requests.

The request states that Enterprise Texas has experienced a delay in placing the Sherman Lateral fully into service for the performance of services pursuant to Natural Gas Policy Act section 311 and it does not anticipate charging the proposed incremental rate until some time in the future. Enterprise Texas commits that it will not charge its proposed incremental rate for any interim service on the Sherman Lateral, but rather will only charge a rate no greater than the currently effective rate for the Enterprise Texas system that was approved in Docket No. PR07-12.

Notice is hereby given that answers to the motion are due no later than January 29, 2009.

under the Natural Gas Act for authorization to increase the certificated Maximum Allowable Operating Pressure (MAOP) for Line K-M2 and a portion of Line K, originating and terminating in Erie County, New York, and to thereafter operate these lines up to and including the higher MAOP, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.
