

which enables them to compete with Non-Customers who are registered broker-dealers—the same transaction fees that it charges to such Non-Customers.

C. Accelerated Approval of Proposed Rule Change, as Modified by Amendment Nos. 1 and 2

Pursuant to Section 19(b)(2) of the Act,¹⁰⁶ the Commission may not approve any proposed rule change, or amendment thereto, prior to the 30th day after the date of publication of notice of the filing thereof, unless the Commission finds good cause for so doing and publishes its reasons for so finding. The Commission hereby finds good cause for approving the proposed rule change, as modified by Amendment Nos. 1 and 2, before the 30th day after the date of publication of notice of filing thereof in the **Federal Register**.¹⁰⁷ The Commission notes that the proposal, as modified by Amendment No. 1, was published for comment in the **Federal Register** on February 7, 2008. The revisions made to the proposal in Amendment No. 2 deleted proposed changes to ISE Rules 715 and ISE Rule 723(d)(2). These revisions appropriately clarify that the proposed rule change would not limit a Public Customer's access to the Exchange's PIM. Accordingly, pursuant to Section 19(b)(2) of the Act,¹⁰⁸ the Commission finds good cause to approve the proposed rule change, as modified by Amendment Nos. 1 and 2, on an accelerated basis.

IV. Solicitation of Comments

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰⁹ that the proposed rule change (SR-ISE-2006-26), as modified by Amendment Nos. 1 and 2, be, and it hereby is, approved on an accelerated basis.

By the Commission.

All of the applicable fees covered by this filing are identical to fees charged by the Exchange for all other Premium Products. The amount of the execution fee for all ISE Market Maker transactions shall be equal to the execution fee currently charged by the Exchange for ISE Market Maker transactions in equity options.¹⁰ Finally, the amount of the execution fee for all non-ISE Market Maker transactions shall be \$0.45 per contract.¹¹ Further, since options on PSQ, SH, TBT and UDN are multiply-listed, the Exchange's Payment for Order Flow fee shall apply to all these products. The amount of the execution fee charged by the Exchange for Linkage P Orders and Linkage P/A Orders is \$0.24 per contract side and \$0.15 per contract side, respectively. SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-59283; File No. SR-Phlx-2009-01]

Self-Regulatory Organizations; NASDAQ OMX PHLX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Margin Requirements for Foreign Currency Options

January 23, 2009.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹, and Rule 19b-4² thereunder, notice is hereby given that on January 15, 2009, NASDAQ OMX PHLX, Inc. ("Phlx" or "Exchange") filed with the Securities and Exchange Commission

("Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been substantially prepared by the Exchange. Phlx has filed the proposal as a "non-controversial" proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6) thereunder,⁴ which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange, pursuant to Section 19(b)(1) of the Act⁵ and Rule 19b-4 thereunder,⁶ proposes to amend Phlx Rule 721, Proper and Adequate Margin, to add margin requirements for U.S. dollar-settled foreign currency options ("FCOs").⁷

The text of the proposed rule change is available on the Exchange's Web site at <http://www.nasdaqtrader.com/micro.aspx?id=PHLXRulefilings>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to add margin requirements for U.S. dollar-settled FCOs ("FCO margin requirements" or "FCO margin") in Phlx Rule 721(c).

The FCO margin requirements proposed are substantially similar to prior Commentary .16 to Phlx Rule 722, which was removed in a recent filing to

simplify Phlx's margin rules.⁸ The FCO margin requirements are also substantially similar to current ISE Rule 1202(d).

Accordingly, under proposed Phlx Rule 721(c), the Exchange will calculate the margin requirement for customers that assume short FCO positions by adding a percentage of the current market value of the underlying foreign currency contract to the option premium price less an adjustment for the out-of-the-money amount of the option contract. On a quarterly calendar basis, the Exchange will review five-day price changes over the preceding three-year period for each underlying currency and set the add-on percentage at a level which would have covered those price changes at least 97.5% of the time (the "confidence level").

If the results of subsequent reviews show that the current margin level provides a confidence level below 97%, the Exchange will increase the margin requirement for that individual currency up to a 98% confidence level. If the confidence level is between 97% and 97.5%, the margin level will remain the same but will be subject to monthly follow-up reviews until the confidence level exceeds 97.5% for two consecutive months. If, during the course of the monthly follow-up reviews, the confidence level drops below 97%, the margin level will be increased to a 98% level and if it exceeds 97.5% for two consecutive months, the currency will be taken off monthly reviews and will be put back on the quarterly review cycle. If the currency exceeds 98.5%, the margin level will be reduced to a 98% confidence level during the most recent 3 year period.

Finally, in order to account for large price movements outside the established margin level, if the quarterly review shows that the currency had a price movement, either positive or negative, greater than two times the margin level during the most recent 3 year period, the margin requirement will be set at a level to meet a 99% confidence level ("Extreme Outlier Test").⁹ These parameters are identical to prior Commentary .16 to Phlx Rule 722.

⁸ See Exchange Act Release No. 58340 (August 11, 2008), 73 FR 48268 (August 18, 2008) (SR-Phlx-2007-33). Pursuant to this filing, Rule 721 was amended to add subsection (b) requiring Exchange members to make an election to be bound by either CBOE or NYSE margin rules, and Phlx Rule 722 was shortened.

⁹ The Exchange will inform its members and the public of the margin levels for each currency option immediately following the quarterly reviews described in Rule 721(c).
