Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

BNSF Railway Company

(*Waiver Petition Docket Number FRA–2008–0157*)

The BNSF Railway Company (BNSF) seeks a waiver of compliance with the Locomotive Safety Standards, 49 CFR 229.23 (requiring a periodic inspection at least every 92 days) and 229.25 (requiring specific tests at every periodic inspection) for BNSF General Electric *Evolution* series and Electro-Motive Diesel *ACe* series locomotives.

BNSF states in their request that each of the subject locomotives are equipped with new self-diagnostic technology and advanced computer control, and that the locomotives were designed by the manufacturer to be maintained at a 6 month interval. BNSF further indicates that if the waiver is granted, the required 92 day periodic inspection will be performed at 184 day intervals on the subject locomotives, and that qualified mechanical forces will perform at least one of the required daily inspections every 31 days. FRA non-complying conditions discovered on locomotives en-route or during any daily inspection will be moved to a mechanical facility capable of making required repairs.
