Description of Permit Modification Requested

On October 1, 2008, the National Science Foundation issued a waste management permit (2009 WM-001) to Erica Wikander, Environmental Officer, Quark Expeditions, Inc. after posting a notice in the June 9, 2008 **Federal Register**. Public comments were not received. The issued permit was for the operation of remote field support and emergency provisions for the expedition vessels, AKADEMIK SERGEY VAVILOV, AKADEMIK IOFFEE and CLIPPER ADVENTURER. The permit holder requests to take 4 ATV's and two 10 gallon plastic containers of regular gasoline ashore, which will be housed in the garage overnight at Bellingshausen Station. The ATV's will be used during the course of a marathon that will be run on King George Island. The ATV's will be used primarily for safety reasons should anyone need to return to the beach or ship, due to an accident or a collapse. The ATV's will be used to conduct a thorough cleanup after the marathon.

In addition the permit holder proposes to take 3 portable toilets ashore and set them up in small tents. After the marathon everything will be removed back to the ship and no human

waste will be left ashore. The waste from the portable toilets will be put into the storage tank for sewage on the ships.

The duration of the requested modification is coincident with the current permit which expires on March 31, 2013.

Nadene G. Kennedy,

Permit Officer.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-59336; File No. SR-CBOE-2008-127]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Order Approving Proposal To Eliminate the \$3 Underlying Price Requirement for Continued Listing and Listing of Additional Series

February 2, 2009.

On December 18, 2008, the Chicago Board Options Exchange, Incorporated ("Exchange" or "CBOE") filed with the Securities and Exchange Commission ("Commission") pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to eliminate the \$3 underlying price requirement for continued listing and for the listing of additional series. The proposed rule change was published for comment in the **Federal Register** on January 2, 2009.³ The Commission received one comment letter on the proposed rule change.⁴ This order approves the proposed rule change.

The proposed rule change amends CBOE Rule 5.4.01 to eliminate the \$3 market price per share requirement from the Exchange's requirements for continued approval for an underlying security and amends CBOE Rule 5.4.02 to eliminate the prohibition against listing additional series of options on an underlying security at any time when the price per share of such underlying security is less than \$3.

The Exchange believes that the \$3 market price per share requirement is no longer necessary or appropriate, and states that only those underlying securities meeting the remaining maintenance listing criteria set forth in Rule 5.4.01 will be eligible for
