**DATES:** Please submit comments by April 13, 2009.

**SUPPLEMENTARY INFORMATION:** In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, as amended, the Millennium Challenge Corporation (MCC) is publishing the following summary of a proposed information collection for public comment. *Proposed Project:* A survey of international development organizations to assist in measuring MCC's leadership role in development practice. This survey, conducted by an independent organization, will become a part of MCC's data measuring its performance under the provisions of the Government Performance Results Act of 1993. It will seek to measure how MCC is affecting change in the manner development assistance is administered by other organizations providing similar assistance.

*Abstract:*

*Type of Information Collection Request:* New Request.

*Title of Information Collection:* Leadership in Development Assistance Survey.

*Use:* The Millennium Challenge Act of 2003 (Pub. One of MCC's strategic goals, as stated in its strategic plan developed pursuant to GPRA, is to "advance the international development practice." This survey will gather information regarding how MCC's unique model of assistance is impacting the development assistance community. In particular, it will measure whether other organizations recognize the distinguishing characteristics of MCC's approach to providing foreign assistance, whether they believe that

MCC's approach represents best practice, and whether they are modifying their own assistance programs to include elements of MCC's approach. The survey will be conducted by phone to organizations and individuals selected by MCC. Data gathered by the independent survey will be provided to MCC for the purpose of assessing its performance with respect to the above-stated strategic goal.

*Frequency:* Every other year.

*Affected Public:* International donors, foundations, think tanks, academicians.

*Number of Respondents:* 300.

*Total Responses:* 300.

*Average Burden per Response:* 10 minutes.

## NUCLEAR REGULATORY COMMISSION

[NRC–2009–045]

### Biweekly Notice Applications and Amendments to Facility Operating Licenses Involving No Significant Hazards Considerations

#### I. Background

Pursuant to section 189a. (2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (the Commission or NRC staff) is publishing this regular biweekly notice. The Act requires the Commission publish notice of any amendments issued, or proposed to be issued and grants the Commission the authority to issue and make immediately effective any amendment to an operating license upon a determination by the Commission that such amendment involves no significant hazards consideration, notwithstanding the pendency before the Commission of a request for a hearing from any person.

This biweekly notice includes all notices of amendments issued, or proposed to be issued from January 14, 2009 to January 28, 2009. The last biweekly notice was published on January 27, 2009 (74 FR 4767).

#### Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a proposed determination that the following amendment requests involve no significant hazards consideration. Under the Commission’s regulations in

10 CFR 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. The basis for this proposed determination for each amendment request is shown below.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendment until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendment before expiration of the 60-day period provided that its final determination is that the amendment involves no significant hazards consideration. In addition, the Commission may issue the amendment prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rulemaking, Directives and Editing Branch, TWB–05–B01M, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, and should cite the publication date and page number of this **Federal Register** notice. Copies of written comments received may be examined at the Commission’s Public Document Room (PDR), located at One White Flint North, Public File Area O1F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

Within 60 days after the date of publication of this notice, any person(s) whose interest may be affected by this action may file a request for a hearing and a petition to intervene with respect
