ACTION: Notice of availability.

SUMMARY: This notice of availability announces the public release of the Draft Comprehensive Plan and Integrated Programmatic Environmental Impact Statement (EIS) for the Mississippi Coastal Improvements Program (MsCIP), Jackson, Harrison, and Hancock Counties, MS. The Mobile District, U.S. Army Corps of Engineers (Corps) published in the **Federal Register**, August 9, 2006, (71 FR 45537) a Notice of Intent to Prepare a Draft EIS to address the potential impacts associated with actions to comprehensively address hurricane and storm damage reduction, prevention of saltwater intrusion, preservation of fish and wildlife, prevention of erosion, and other related water resource purposes in coastal Mississippi. These actions are related to the consequences of hurricanes in the Gulf of Mexico in 2005. The Corps will forward recommendations to Congress as authorized by the Department of Defense Appropriations Act, 2006 (Pub. L. 109-148) dated December 30, 2005. The tentatively selected comprehensive plan elements for construction include ecosystem restoration of the barrier islands, mainland beaches, and sites at Admiral Island, Turkey Creek, Dantzler, Bayou Cumbest, Franklin Creek, Deer Island, and submerged aquatic vegetation in Bayou Cumbest which will restore approximately 3,210 acres of emergent tidal marsh, wet pine savannah, scrub/shrub, submerged aquatic vegetation, and beach and dune habitats. In conjunction with the ecosystem restoration efforts, the Draft Comprehensive Plan/Integrated Programmatic EIS recommends tentatively selected flood damage reduction elements, including Forrest Heights Levee, High Hazard Area Risk Reduction Plan Phase I, Waveland Flood Proofing Pilot Projects, and Moss Point Municipal Facility relocation. The EIS will be used as a basis for ensuring compliance with the National Environmental Policy Act (NEPA).
