NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2008-0564]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB’s approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Requests to Non-Agreement States For Information.
2. *Current OMB approval number:* 3150-0200.
3. *How often the collection is required:* 8 times per year.
4. *Who is required or asked to report:* The 17 Non-Agreement States (those States and 2 territories that have not signed 274(b) Agreements with NRC).
5. *The number of annual respondents:* 136.
6. *The number of hours needed annually to complete the requirement or request:* 1122.

7. *Abstract:* Requests may be made of States that are similar to those of Agreement States to provide a more complete overview of the national program for regulating radioactive materials. This information would be used in the decisionmaking of the Commission. With Agreement States and as part of the NRC cooperative post-agreement program with the States pursuant to Section 274(b), information on licensing and inspection practices, and/or incidents, and other technical

and statistical information are exchanged. Agreement State comments are also solicited in the areas of proposed implementing procedures relative to NRC Agreement State program policies. With the enactment of the Energy Policy Act of 2005, specifically Section 651(e), NRC now has regulatory authority over use of accelerator-produced radioactive materials and discrete sources of radium-226 and other naturally occurring radioactive material as specified by the Commission. Therefore, information requests sought may take the form of surveys, e.g., telephonic and electronic surveys/polls and facsimiles.

Submit, by April 13, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2008-0564. You may submit your comments by any of the following methods. Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2008-0564. Mail comments to NRC Clearance Officer, Gregory Trussell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions about the information collection requirements may be directed to the NRC Clearance Officer, Gregory Trussell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6445, or

by email to
INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 29th day of January 2009.

For the Nuclear Regulatory Commission.

Gregory Trussell,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rule 19a-1; SEC File No. 270-240; OMB Control No. 3235-0216.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), the Securities and Exchange Commission (the “Commission”) has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Section 19(a) (15 U.S.C. 80a-19(a)) of the Investment Company Act of 1940 (the “Act”)¹ makes it unlawful for any registered investment company to pay any dividend or similar distribution from any source other than the company’s net income, unless the payment is accompanied by a written statement to the company’s shareholders which adequately discloses the sources of the payment. Section 19(a) authorizes the Commission to prescribe the form of such statement by rule.

Rule 19a-1 (17 CFR 270.19a-1) under the Act, entitled “Written Statement to Accompany Dividend Payments by Management Companies,” sets forth specific requirements for the information that must be included in statements made pursuant to section 19(a) by or on behalf of management companies.² The rule requires that the statement indicate what portions of distribution payments are made from net income, net profits from the sale of security or other property (“capital gains”) and paid-in capital. When any part of the payment is made from capital gains, rule 19a-1 also requires that the statement disclose certain other information relating to the appreciation

or depreciation of portfolio securities. If an estimated portion is subsequently determined to be significantly inaccurate, a correction must be made on a statement made pursuant to section 19(a) or in the first report to shareholders following the discovery of the inaccuracy.

The purpose of rule 19a-1 is to afford fund shareholders adequate disclosure of the sources from which distribution payments are made. The rule is intended to prevent shareholders from confusing income dividends with distributions made from capital sources. Absent rule 19a-1, shareholders might receive a false impression of fund gains.

Based on a review of filings made with the Commission, the staff estimates that approximately 4600 series of registered investment companies that are management companies may be subject to rule 19a-1 each year, and that each portfolio on average mails two statements per year to meet the requirements of the rule.³ The staff further estimates that the time needed to make the determinations required by the rule and to prepare the statement required under the rule is approximately 1 hour per statement. The total annual burden for all portfolios therefore is estimated to be approximately 9,200 burden hours.

The staff estimates that approximately one-third of the total annual burden (3,067 hours) would be incurred by a paralegal with an average hourly wage rate of approximately \$168 per hour,⁴ and approximately two-thirds of the annual burden (6,133 hours) would be incurred by a compliance clerk with an average hourly wage rate of \$62 per hour.⁵ The staff therefore estimates that the aggregate annual cost of complying with the paperwork requirements of the rule is approximately \$895,502 ((3,067 hours × \$168) + (6,133 hours × \$62)).

To comply with state law, many investment companies already must distinguish the different sources from which a shareholder distribution is paid and disclose that information to shareholders. Thus, many investment

³ A few portfolios make monthly distributions from sources other than net income, so the rule requires them to send out a statement 12 times a year. Other portfolios never make such distributions.

⁴ Hourly rates are derived from the Securities Industry and Financial Markets Association (“SIFMA”), Management and Professional Earnings in the Securities Industry 2007, modified to account for an 1800-hour work-year and multiplied by 5.35 to account for bonuses, firm size, employee benefits, and overhead.

⁵ Hourly rates are derived from SIFMA’s Office Salaries in the Securities Industry 2007, modified to account for an 1800-hour work-year and multiplied by 2.93 to account for bonuses, firm size, employee benefits and overhead.

¹ 15 U.S.C. 80a.

² Section 4(3) of the Act (15 U.S.C. 80a-4(3)) defines “management company” as “any investment company other than a face amount certificate company or a unit investment trust.”
