Teniae Coli Guided Navigation and Registration for Virtual Colonoscopy

Description of Technology: This invention describes a more sensitive and efficient method for colon cancer screening using the *teniae coli* as an anatomical reference. Most computed tomographic colonography (CTC) protocols for colon cancer screening require that a patient is scanned in both the supine and prone positions for increased sensitivity; as a result, a reference system between scans is necessary for lesion matching. The *teniae coli* are three equal-distanced bands of longitudinal smooth muscle on the surface of the colon between the appendix and the sigmoid colon. These muscles can be used as anatomical landmarks to derive a coordinate system to better localize and register the corresponding supine and prone positions of a CTC study. The inventors have devised a semi-automated system for extracting data from the *teniae coli* and defining coordinate systems based on them.

The invention allows for more detailed detection of anatomical features for surgical planning, better camera orientation and virtual protocols, more efficient lesion registration, and precise record keeping. The algorithm has been used successfully to correctly localize several polyps to the same circumferential position in both supine and prone scans of a CTC study.

Applications:

- Positioning virtual cameras for navigating a single dataset.
- Synchronizing virtual cameras for virtual colonoscopic navigation.
- Predicting lesion candidates in a bound region for both 2D and 3D reading paradigms.
- Automatic polyp matching between scans for CAD applications.

Development Status: Late stage.

Inventors: Hui-Yang Huang (CC), Ronald M. Summers (CC), Dave R. Roy (OD).

Publication: A Huang, DA Roy, RM Summers, M Franaszek, N Petrick, JR Choi, PJ Pickhardt. *Teniae coli*-based circumferential localization system for CT colonography: feasibility study. *Radiology* 2007 May;243(2):551-560.

Patent Status:

- U.S. Patent Application No. 11/436,889 filed May 17, 2006 (HHS Reference No. E-084-2006/O-US-01).

Method and Apparatus for Performing Multiple Simultaneous Manipulations of Biomolecules in a Two-Dimensional Array

Description of Technology: This technology concerns a method and apparatus for accomplishing and/or facilitating the analysis of multiple biomolecules separated in a two-dimensional array, such as gel, membrane, tissue biopsy, etc. The invention employs a separator, termed an External Movement Inhibitor Device, that allows biomolecules to be transferred from an array such as those listed above to another support system while maintaining the two-dimensional spatial relationship of the biomolecules as in the array. The biomolecules can subsequently be subjected to various manipulations such as amplification, reverse transcription, labeling, cloning, etc., after which multiple well-established methods for quantitative and qualitative analysis can be used.

Applications:

- Two dimensional nucleic acid analysis.
 - Two dimensional proteomic analysis.
 - Histology/Pathology.
- Advantages:** Allows for simultaneous 2D analysis of nucleic acids and proteins.

Development Status: *In vitro* data can be provided upon request.

Market:

- Histology/Pathology of tissue samples.
- Tissue arrays.
- Nucleic acid and proteomic analysis.

Inventors: Michael R. Emmert-Buck *et al.* (NCI).

Patent Status:

- International Patent Application No. PCT/US03/37208 filed 20 Nov 2003 (HHS Ref. No. E-339-2002/O-PCT-02).
- U.S. Patent Application No. 10/535,521 filed 18 May 2005 (HHS Reference No. E-339-2002/O-US-03).

Licensing Status: Available for licensing.

Licensing Contact: Kevin W. Chang, PhD; 301-435-5018, changke@mail.nih.gov.

Collaborative Research Opportunity: The National Cancer Institute Laboratory of Pathology and Urologic Oncology Branch, Center for Cancer Research is seeking statements of capability or interest from parties interested in collaborative research to further develop, evaluate, or commercialize an external movement

inhibitor device for spatially restricted PCR amplification of nucleic acids. Please contact John D. Hewes, PhD at 301-435-3121 or hewesj@mail.nih.gov for more information.

Dated: February 10, 2009.

National Institute on Drug Abuse; Notice of Closed Meetings

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended (5 U.S.C. Appendix 2), notice is hereby given of the following meetings.

The meetings will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute on Drug Abuse Special Emphasis Panel; NIDA-K Conflicts—SEP.

Date: March 17, 2009.

Time: 4:30 p.m. to 6:30 p.m.

Agenda: To review and evaluate grant applications.

Place: Ritz Carlton Hotel, 1150 22nd Street, N.W., Washington, DC 20037.

Contact Person: Kristen V. Huntley, PhD, Scientific Review Administrator, Office of Extramural Affairs, National Institute on Drug Abuse, NIH, DHHS, Room 220, MSC 8401, 6101 Executive Boulevard, Bethesda, MD 20892-8401, 301-435-1433, huntleyk@mail.nih.gov.

Name of Committee: National Institute on Drug Abuse Special Emphasis Panel; Medications Development Centers.

Date: March 19-20, 2009.

Time: 8:30 a.m. to 5 p.m.

Agenda: To review and evaluate grant applications.

Place: Sofitel Hotel, 806 15th Street, Washington, DC 20005.

Contact Person: Scott Chen, PhD, Scientific Review Officer, Office of Extramural Affairs, National Institute on Drug Abuse, National Institutes of Health, DHHS, 6101 Executive Boulevard, Room 220, MSC 8401, Bethesda, MD 20892, 301-443-9511, chenesc@mail.nih.gov.

Name of Committee: National Institute on Drug Abuse Special Emphasis Panel; AIDS-Related CEBRA Review.

Date: March 20, 2009.

Time: 1 p.m. to 3 p.m.

Agenda: To review and evaluate grant applications.

Place: 6101 Executive Blvd, 220 Rockville, MD 20852, (Virtual Meeting).
