FAA AD Differences

Note 2: This AD differs from the MCAI and/or service information as follows: Paragraph A.3. of the MCAI requires a one-time inspection; however, since we have changed the compliance time for the terminating action in paragraph A.4. of the MCAI (refer to paragraph (g)(1) of this AD), paragraph A.3. of this AD requires repeating the inspections until the terminating action is performed.

Other FAA AD Provisions

(h) The following provisions also apply to this AD:

(1) Alternative Methods of Compliance (AMOCs): The Manager, New York Aircraft Certification Office (ACO), FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. Send information to ATTN: Pong K. Lee, Aerospace Engineer, Airframe and Propulsion Branch, ANE–171, FAA, New York ACO, 1600 Stewart Avenue, Suite 410, Westbury, New York 11590; telephone (516) 228–7324; fax (516) 794–5531. Before using any approved AMOC on any airplane to which the AMOC applies, notify your principal maintenance inspector (PMI) or principal avionics inspector (PAI), as appropriate, or lacking a principal inspector, your local Flight Standards District Office.

(2) Airworthiness Product: For any requirement in this AD to obtain corrective actions from a manufacturer or other source, use these actions if they are FAA-approved. Corrective actions are considered FAA-approved if they are approved by the State of Design Authority (or their delegated agent). You are required to assure the product is airworthy before it is returned to service.

(3) Reporting Requirements: For any reporting requirement in this AD, under the provisions of the Paperwork Reduction Act, the Office of Management and Budget (OMB) has approved the information collection requirements and has assigned OMB Control Number 2120–0056.

(4) Special Flight Permits: As described in Section 21.197 and Section 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199), special flight permits are not allowed.

Pennsylvania Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Proposed rule; withdrawal.

SUMMARY: We, the Office of Surface Mining (OSM), are announcing the withdrawal of a proposed rule pertaining to a request to delete a required amendment related to the Pennsylvania regulatory program (the Pennsylvania program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Pennsylvania requested that a required amendment pertaining to regulatory exemptions for coal extraction incidental to the extraction of other minerals be removed.

DATES: The proposed rule published April 1, 2008, at 73 FR 17268, is withdrawn February 23, 2009.

FOR FURTHER INFORMATION CONTACT: George Rieger, Chief, Pittsburgh Field Division, Office of Surface Mining Reclamation and Enforcement, 415 Market Street, Room 304, Harrisburg, PA 17101; Telephone: 717–782–4036, e-mail: griejer@osmre.gov.

SUPPLEMENTARY INFORMATION:

I. Background on the Pennsylvania Program

II. Submission of the Request

Section 503(a) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act), 30 U.S.C. 1253(a), permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of the Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to the Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Pennsylvania regulatory program on July 30, 1982. You can find background information on the Pennsylvania program, including the Secretary’s findings, the disposition of comments,
and conditions of approval in the July 30, 1982 Federal Register (47 FR 33050). You can also find later actions concerning Pennsylvania’s program and program amendments at 30 CFR 938.11, 938.12, 938.13, 938.15, and 938.16.

II. Submission of the Request

By letter dated December 18, 2007, Pennsylvania sent us a request to remove a required amendment codified at 30 CFR 938.16(uuu). This required amendment pertains to regulatory exemptions for coal extraction incidental to the extraction of other minerals (Administrative Record Number PA–892.00) under SMCRA. Pennsylvania submitted the request because it maintained that its program was no less effective than the Federal requirements, and therefore, no amendment was necessary.

We announced receipt of the request in the April 1, 2008 Federal Register (73 FR 17268–17270). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the request (Administrative Record Number PA–892.03). We did not hold a public hearing or meeting because no one requested one. The public comment period ended on May 1, 2008. We received comments from one organization, Citizens for Pennsylvania’s Future (PennFuture).

In a letter dated December 11, 2008, Pennsylvania notified us that it was withdrawing the request at this time so that they can perform additional analysis on the issue and resubmit the amendment at a later date. The required amendment codified at 30 CFR 938.16(uuu) remains effective.
