

Therefore, a confidence range of ± 15 percent was applied, resulting in a waterway capacity range of 1,818 to 2,460 boat slips. Using a conservative approach in approving permits for marinas along the FLC, the USACE selected the low end of this range (1,818) as the number of boat slips that will be initially approved. Due to the implementation of mitigation options, specifically the construction of dedicated commercial barge mooring locations, the number of boat slips initially approved increased to 1,943. This number was derived by updating Tables 9.1, 9.3, and 10.2 in the WCS as a result of applying the "Commercial Vessels" updated reduction factor (Appendix R). The option of phasing-in 1,150 additional slips will begin after the first year of construction and occur at a rate of 25 percent (287 slips) every year for four years. An evaluation period will occur each year to evaluate impacts of increased recreational boat traffic on commercial barge navigation and overall waterway safety. During this period, the applicant could implement mitigation management options and provide monitoring reports to include the following:

- Additional baseline data to include marina vessel use, peak volumes/flow rates, and peak hour uses.
- Impacts of projects on safety on the FLC, including Alabama Marine Police and USCG reports.
- Impacts on commercial navigation operations, including impacts on commercial traffic schedules.

If during this evaluation period it is determined that increased recreational boat traffic is having adverse impacts on commercial barge navigation or safety, the USACE has the authority to deny permits for additional boat slips on the FLC.

5. The DEIS will be available for public review at the following locations: Thomas B. Norton Public Library, 221 W. 19th Avenue, Gulf Shores AL 36542, (251) 968-1176. Fairhope Public Library, 161 N. Section Street, Fairhope AL 36532, (251) 928-7483. Foley Public Library, 319 E. Laurel Street, Foley AL 36535, (251) 943-7665. Orange Beach Public Library, 26267 Canal Rd., Orange Beach AL 36561, (251) 981-2923. Daphne Public Library, 2607 U.S. Hwy. 98, Daphne AL 36526, (251) 621-2818.

6. Public comments can be submitted through a variety of methods. Written comments may be submitted to the Corps by mail, facsimile, or electronic methods. Additional comments (written

or oral) may be presented at the public hearing to be held in March 2009 in Gulf Shores, AL. Additional information on the public hearing will be mailed in a public notice to the agencies and public and announced in news releases.

Dated: February 17, 2009.

Craig J. Litteken,

Chief, Regulatory Division.

BILLING CODE 3720-58-P

DELAWARE RIVER BASIN COMMISSION

Notice of Commission Meeting and Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold an informal conference followed by a public hearing on Wednesday, March 11, 2009. The hearing will be part of the Commission's regular business meeting. The conference session and business meeting both are open to the public and will be held at the Commission's office building, located at 25 State Police Drive, West Trenton, New Jersey.

The conference among the commissioners and staff will begin at 10:30 a.m. and will consist of a presentation by representatives of the National Weather Service and the U.S. Army Corps of Engineers on a project due to be completed later this year that will make digital, interactive flood inundation maps available via the Internet for the main stem Delaware River from Trenton to Port Jervis, excluding the Delaware Water Gap. The presentation will be followed by q. and a.

The subjects of the public hearing to be held during the 1:30 p.m. business meeting include the dockets listed below:

1. *DuPont Country Club D-90-104-2*. An application for renewal of a surface water withdrawal project to continue the withdrawal of a maximum of 11 million gallons per thirty days (mg/30 days) of water to irrigate approximately 80 acres of the applicant's golf course fairways. Surface water is withdrawn from two existing intakes—one on Brandywine Creek and the other on Husband's Run, a tributary of Brandywine Creek. The project is located in the Brandywine-Christina Watershed in the City of Wilmington, New Castle County, Delaware.

2. *Borough of Glassboro D-96-54 CP-2*. An application for the renewal of a ground water withdrawal project to continue the withdrawal of 105 mg/30

days to supply the applicant's public water distribution system from existing Wells Nos. 2, 3, 4, 5, 6, 7, 8, and 9 in the Cohansey Formation. The project is located in the Mantua Creek Watershed in Glassboro Borough, Gloucester County, New Jersey, in New Jersey Critical Water Supply Area 2.

3. *Womelsdorf-Robeson Joint Authority D-98-23 CP-2*. An application for renewal of a ground water withdrawal project to continue the withdrawal of 23 mg/30 days to supply the applicant's public water supply from existing Well Nos. 1, 2, 8 and 9. The project is located in the Precambrian and Cambrian age formations in the Tulpehocken Creek Watershed in Millcreek Township, Lebanon County and Heidelberg Township, Berks County, Pennsylvania.

4. *Buckingham Township D-2003-13 CP-5*. An application for approval of a ground water withdrawal project to supply up to 5.31 mg/30 days of water to the applicant's public water supply system from new Well No. F-8 and retain the existing combined withdrawal from all wells of 42.0 mg/30 days. The project will allow the docket holder to add flexibility and redundancy and will relieve stress on its Furlong distribution system. The project is located in the Limeport Formation in the Mill Creek Watershed in Buckingham Township, Bucks County, Pennsylvania and is located in the Southeastern Pennsylvania Ground Water Protected Area.

5. *United States Steel, LLC D-78-68-2*. An application for the approval of a 0.163 million gallon per day (mgd) discharge of treated sanitary wastewater from Outfall No. 203; a 3.75 mgd discharge of industrial waste and non-contact cooling water (NCCW) from Outfall No. 103; and a NCCW discharge from Outfall No. 002. Additionally, the docket holder has requested increased TDS effluent concentrations to support a new industrial client. The applicant requests a TDS determination establishing new daily maximum (2,200 mg/l), monthly average (1,100 mg/l) and instantaneous maximum (2,750 mg/l) concentrations at Outfall No. 103. On-site Outfalls Nos. 103 (IWTP), 203 (WWTP) and 303 (stormwater only) all discharge to Outfall No. 003. The project WWTP, IWTP, and Outfall No. 002 all discharge to Water Quality Zone 2 of the Delaware River at River Mile 127.0. The project facilities are located at the U.S. Steel Real Estate Keystone Industrial Port Complex in Falls Township, Bucks County, Pennsylvania.

6. *Eagle Lake Community Association D-87-55-2*. An application to approve the Association's existing 0.5 mgd

wastewater treatment plant (WWTP). The DRBC issued Docket No. D-87-55 on September 22, 1987, approving construction of a 0.4 mgd WWTP by the Association. The WWTP discharges to an unnamed tributary of Tamarack Creek, a tributary of the Lehigh River, which flows to the Delaware River. The project is located within the drainage area to the section of the non-tidal Delaware River known as the Lower Delaware, which is designated as Special Protection Waters with the classification Significant Resource Waters. The project is located in Covington Township, Lackawanna County, Pennsylvania.

7. *Waste Management Disposal Services of Pennsylvania, Inc. D-88-54-4*. An application for renewal of approval of a discharge of 0.1 mgd from the Grows Landfill Leachate Treatment Plant (LTP). Additionally, a TDS determination is requested to allow the plant's monthly average effluent TDS concentration to increase from 15,000 mg/l to 19,100 mg/l. The LTP outfall discharges to the tidal Delaware River via a cove in Water Quality Zone 2 at River Mile 125.64-1.0. The LTP is located in Falls Township, Bucks County, Pennsylvania. A Notice of Application Received for construction of a new 0.3 mgd LTP for the Grows Landfill was published on November 14, 2006 under Docket No. D-88-54-4. Since the proposed renewal will be processed first, the renewal will be assigned Docket No. D-88-54-4. The application for approval of a new LTP, to be reviewed separately, has been assigned Docket No. D-88-54-5.

8. *Croda, Inc. D-88-74-3*. An application for an increase in the applicant's ground water withdrawal from 60.04 mg/30 days to 76.63 mg/30 days. DNREC denied a like request, and the DRBC draft docket reflects that decision. Additionally, the applicant requested renewal of its surface water allocation; however the DRBC staff are recommending that the Commission consider a reduction. The purpose of the project is to continue to supply water for heating and cooling purposes to the Croda, Inc. industrial facility from one Delaware River Intake and Wells Nos. 8, 9, 10, 11, and 12. The existing groundwater allocation of 60.04 mg/30 days is proposed to be renewed for all wells, but the surface water allocation is proposed to be reduced from 470.0 mg/30 days to 99.0 mg/30 days. The project is located south of Interstate Route 295 in New Castle County, Delaware.

9. *Ruscombmanor Township D-2007-34 CP-1*. An application for approval to expand the Golden Oaks WWTP from 0.025 mgd to 0.0645 mgd. The WWTP

discharges to an unnamed tributary of Furnace Creek in Ruscombmanor Township, Berks County, Pennsylvania.

10. *Blue Mountain Ski Area D-2008-23-1*. An application for approval of the expansion of the Blue Mountain Ski Area WWTP from 25,000 gallons per day (gpd) to 60,000 gpd. The project WWTP is located in Lower Towamensing Township, Carbon County, Pennsylvania. The WWTP currently discharges to Buckwa Creek, a tributary of Aquashicola Creek. If approved, the project will discharge directly to Aquashicola Creek. Aquashicola Creek is a tributary of the Lehigh River. The project WWTP is located within the drainage area of the section of the non-tidal Delaware River known as the Lower Delaware, which is classified as Special Protection Waters.

11. *Aqua Pennsylvania, Inc. D-2008-25-1*. An application for approval of the existing 0.150 mgd Ridley Creek Water Filtration Plant discharge. The discharge consists of filter backwash from the applicant's water filtration plant. The project discharges to Ridley Creek, which is a tributary of the Delaware River within Water Quality Zone 4. The project is located in Middletown Township, Delaware County, Pennsylvania.

12. *West Deptford Energy Station D-2008-27-1*. An application to approve a cooling water withdrawal and industrial wastewater discharge associated with the construction of a new gas fired, 1,500 megawatt combined cycle power generation facility, known as the West Deptford Energy Station (WDES). The WDES will withdraw an average of 222.6 mg/30 days and maximum of 287.7 mg/30 days of treated effluent from the effluent pipeline of the Gloucester County Utilities Authority (GCUA) wastewater treatment plant as a cooling water source. The WDES will also discharge a monthly average of 2.0 mgd (2.6 mgd daily maximum) of industrial wastewater back to GCUA's effluent pipeline (via WDES Outfall No. DSN001A). The combined effluents will discharge from GCUA's existing outfall (No. DSN001). The facility is located in West Deptford Township, Gloucester County, New Jersey.

13. *Sunny Side Farms, Inc. D-2008-32-1*. A ground water withdrawal project to supply a maximum of 13.5 mg/30 days of water for the irrigation of approximately 60 acres of wheat and soybeans from a single well known as Millville Farm Well. The well is located in the Kirkwood-Cohansey Formation in the Maurice River Watershed in the City of Millville, Cumberland County, New Jersey.

14. *Arcelor Mittal Plate LLC D-2008-36-1*. An application for approval of an existing surface water withdrawal of up to 240 mg/30 days. The Arcelor Mittal Plate Industrial facility withdraws surface water from two intakes. Intake No. 1 withdraws approximately 0.8 mgd of surface water from Sucker Run, a tributary of the West Branch Brandywine Creek. Intake No. 2 withdraws approximately 7.2 mgd of surface water from the West Branch Brandywine Creek. The facility is located in the City of Coatesville, Chester County, Pennsylvania.

15. *FPL Energy Marcus Hook, L.P. D-2000-44-2*. Approval is requested for minor corrections to the Descriptions and Decisions Sections of Docket D-2000-44, issued to FPL Energy Marcus Hook, L.P., on September 28, 2000.

The business meeting also will include adoption of the Minutes of the Commission's December 10, 2009 business meeting; announcements of upcoming advisory committee meetings and other events; a report on hydrologic conditions in the basin; a report by the Executive Director; and a report by the Commission's General Counsel. Additional business meeting items will include consideration by the Commission of a resolution adopting proposed amendments to the Water Code and Comprehensive Plan to implement water auditing, and a resolution formally declaring DRBC's intention to review natural gas drilling projects in shale formations in the Delaware Basin. An opportunity for public dialogue will be provided at the end of the meeting.

Draft dockets scheduled for public hearing on March 11, 2009 will be posted on the Commission's Web site, <http://www.drbc.net>, where they can be accessed through the Notice of Commission Meeting and Public Hearing. Additional documents relating to the dockets and other items may be examined at the Commission's offices. Please contact William Muszynski at 609-883-9500, extension 221, with any docket-related questions.

Individuals in need of an accommodation as provided for in the Americans with Disabilities Act who wish to attend the informational meeting, conference session or hearings should contact the commission secretary directly at 609-883-9500 ext. 203 or through the Telecommunications Relay Services (TRS) at 711, to discuss how the Commission can accommodate your needs.

Dated: February 18, 2009.

Pamela M. Bush,

Commission Secretary.

BILLING CODE 6360-01-P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 27, 2009.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this

collection on the respondents, including through the use of information technology.

Dated: February 19, 2009.

Angela C. Arrington,

Director, Information Collections Clearance Division, Regulatory Information Management Services, Office of Management.

Institute of Education Sciences

Type of Review: Revision.

Title: Integrated Postsecondary

Education Data System.

Frequency: Annually.

Affected Public: Businesses or other for-profit; Not-for-profit institutions; State, Local, or Tribal Gov't, SEAs or LEAs

Reporting and Recordkeeping Hour Burden:

Responses: 58,090.

Burden Hours: 189,133.

Abstract: The National Center for Education Statistics (NCES) is requesting an amendment to its three-year clearance for the Integrated Postsecondary Education Data System (IPEDS) to run for the 2008-09, 2009-10, and 2010-2011 Web-based data collections. Current authorization for IPEDS expires January 31, 2012 (OMB No. 1850-0582). The Higher Education Opportunity Act (HEOA), which became law on August 14, 2008, after OMB had already granted IPEDS a three-year clearance, has several implications for the IPEDS annual Web-based data collection. The law requires the immediate implementation of several new institutional reporting requirements so that the data may be made available on the College Navigator Web site by August 2009. To meet these statutory deadlines, NCES requested two amendments to its clearance package from OMB, in order to meet the August 2009 deadline for several new requirements in the new law. First, a change memo was sent to OMB on August 19, 2008 (known as "Amendment 1"). It included a small number of non-substantive changes to the 2008-09 data collection based on the new requirements. OMB provided clearance for those changes in a notice on August 26, 2008. Then, NCES submitted a revised clearance package (known as "Amendment 2"). It included a limited number of additional substantive changes to spring cycle of the 2008-09 IPEDS Web-based data collection. OMB provided clearance for those changes in a notice on January 16, 2009. NCES now requests a third set of revisions to the Original Clearance Package to meet additional HEOA requirements for the collection of data related to net price in the 2009-10 and

2010-11 data collections (known hereafter as "Amendment 3"). These changes do not affect the 2008-09 data collection now underway. These changes will allow NCES to make available on the College Navigator Web site data on institutional net prices and a multi-year tuition calculator. In addition, we are including a set of changes to improve the data already collected in IPEDS that are based on suggestions from the postsecondary education data community and IPEDS Technical Review Panel. These changes will improve the reporting of data related to the new HEOA-mandated student-to-faculty ratio, and simplify IPEDS reporting and reduce reporting burden for nondegree-granting institutions.

Requests for copies of the proposed information collection request may be accessed from <http://www.edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3947. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., LBJ, Washington, DC 20202-4537. Requests may also be electronically mailed to ICDocketMgr@ed.gov or faxed to 202-401-0920. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.
