Electronic Tariff Filings; Notice of Posting of Information and Establishment of RSS Feed

February 23, 2009.

In Order No. 714,¹ the Commission adopted regulations requiring that, as of April 1, 2010, tariff and tariff related filings must be made electronically according to a set of protocols and standards. A Web site (<http://www.ferc.gov/docs-filing/etariff.asp>) and an e-mail address (etariff@ferc.gov) have been established to provide information, and respond to questions, about the protocols and standards.

The information on the Web site needs to be updated and revised from time to time. Answers to the questions received through e-mail also may be of value to software providers and companies other than the requester. In order to ensure that all vendors and providers have access to this information, the questions and answers will be posted on the Web site under the "Staff's Response to Discussion Questions" link. Similar questions may be grouped together with a single response.

The following revised documents are being posted: Preliminary FERC eTariff Rules Table, Type of Filing, Attachment Reference Code, and Staff's Response to

Discussion Questions. The Staff's Response to Discussion Questions has been revised to organize better the previous information posted with respect to the December 3, 2008 technical conference and to add additional information. In addition, the dates on which each item is revised will be listed so that viewers can more easily determine the new items that have been added as the document is revised.

Because these documents will be updated and revised on a regular basis, a Secretary's Notice will not be published for every change made on the eTariff Web site. Instead, an RSS feed has been established for the Web site so that software companies and vendors can be alerted when information on the site is revised. Anyone may subscribe to the RSS feed which is located at <http://www.ferc.gov/xml/etariff.xml>.

For further information, please contact Keith Pierce at 202-502-8525 or by sending an e-mail to ETariff@ferc.gov.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket Nos. CP04-47-001 and CP05-396-001]

Sabine Pass LNG, L.P.; Notice of Availability of the Environmental Assessment for the Proposed Sabine Pass LNG Export Project

February 23, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) on the liquefied natural gas (LNG) facilities proposed by Sabine Pass LNG, L.P. (Sabine Pass) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

In order to operate its facility for the purpose of exporting LNG, Sabine Pass is proposing to modify four 24-inch diameter check valves located on Transfer Arms A and D on the East and West Jetty Platforms. The modifications

to the check valves would allow LNG to flow in the direction for ship loading from the LNG Storage Tanks.

The terminal operations currently utilize the Phase I facilities under Docket CP04-47-000. Until the Phase II facilities under Docket CP05-396-000 are fully operational, LNG export operations would be limited to one transfer arm at a maximum rate of 6,000 cubic meters per hour (m³/hr). Once the Phase II facilities are fully operational, two transfer arms on one Jetty would be used for exporting LNG at a loading rate of 12,000 m³/hr.

The terminal would be able to operate in a dual import/export capacity or solely as an import terminal depending on market conditions. In a dual operational capacity that utilizes Phase I and II facilities, one jetty would be dedicated for loading and the other for unloading. However, the valve modifications and unloading arms would not be permanent and could either be returned to full unloading or kept in-place to allow for dual import/export functionality.

No other modifications to equipment, plant processes, or safety systems would be required to facilitate export operations. Additionally, no new environmental resources and no new stakeholders would be affected.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to Federal, State, and local agencies; public interest groups; interested individuals and affected landowners; newspapers and libraries; and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below.

You can make a difference by providing us with your specific comments or concerns about the Sabine Export Project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please send in your comments so that they will be received in Washington, DC on or before March 23, 2009.

¹ *Electronic Tariff Filings*, Order No. 714, 73 FR 57515 (Oct. 3, 2008), 124 FERC ¶ 61,270 (Sept. 19, 2008).

For your convenience, there are three methods in which you can use to submit your comments to the Commission. In all instances please reference the project docket numbers CP04-47-001 and CP05-396-001 with your submission. The docket number can be found on the front of this notice. The Commission encourages electronic filing of comments and has dedicated eFiling expert staff available to assist you at 202-502-8258 or efiling@ferc.gov.

(1) You may file your comments electronically by using the Quick Comment feature, which is located on the Commission's Internet Web site at <http://www.ferc.gov> under the link to Documents and Filings. A Quick Comment is an easy method for interested persons to submit text-only comments on a project;

(2) You may file your comments electronically by using the eFiling feature, which is located on the Commission's Internet Web site at <http://www.ferc.gov> under the link to Documents and Filings. eFiling involves preparing your submission in the same manner as you would if filing on paper, and then saving the file on your computer's hard drive. You will attach that file as your submission. New eFiling users must first create an account by clicking on "Sign up" or "eRegister." You will be asked to select the type of filing you are making. A comment on a particular project is considered a "Comment on a Filing;" or

(3) You may file your comments via mail to the Commission by sending an original and two copies of your letter to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426; Label one copy of the comments for the attention of Gas Branch 2, PJ11.2.

Comments will be considered by the Commission but will not serve to make the commentor a party to the proceeding. Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (18 CFR 385.214).¹ Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would not be adequately represented by any other parties. You do

not need intervenor status to have your comments considered.

Additional information about the project is available from the Commission's Office of External Affairs, at 1-866-208-FERC or on the FERC Internet Web site (<http://www.ferc.gov>) using the eLibrary link. Click on the eLibrary link, click on "General Search" and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, contact (202) 502-8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to <http://www.ferc.gov/esubscribenow.htm>.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ID-5975-000]

Currin, Earl C., Jr.; Notice of Filing

February 20, 2009.

Take notice that on February 13, 2009, Earl C. Currin, Jr. submitted for filing, an application for authority to hold interlocking positions, pursuant to section 305(b) of the Federal Power Act, 16 U.S.C. 825d(b) (2008), Part 45 of Title 18 of the Code of Federal Regulations, 18 CFR Part 45 (2008), and Commission Order No. 664 (2005).

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as

appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on March 6, 2009.
