

Nature of Response: Required to obtain or retain benefits. The statutory authority for this information collection is contained in 154(i) and 310 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this information collection.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On December 18, 2007, the Commission adopted a *Report and Order and Third Further Notice of Proposed Rulemaking* (the "Order") in MB Docket Nos. 07–294; 06–121; 02–277; 04–228, MM Docket Nos. 01–235; 01–317; 00–244; FCC 07–217. Consistent with actions taken by the Commission in the Order, the following changes are made to Form 345: Section II of Form 345 includes a new certification concerning compliance with the Commission's anti-discrimination rules and the instructions for Section II have been revised to assist applicants with completing the new question. The instructions in Section III have also been revised to incorporate a definition of "eligible entity," which will apply to the Commission's existing Equity Debt Plus ("EDP") standard, one of the standards used to determine whether interests are attributable.

Proposed Project

Customer Surveys Generic Clearance for the National Center for Health Statistics (0920–0729)—Extension—

National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on “the extent and nature of illness and disability of the population of the United States.” This is a request for a generic approval from OMB to conduct customer surveys over the next three years.

As part of a comprehensive program, the National Center for Health Statistics (NCHS) plans to continue to assess its customers’ satisfaction with the quality and relevance of the information it produces. NCHS will conduct voluntary

customer surveys to assess strengths in agency products and services and to evaluate how well it addresses the emerging needs of its data users. Results of these surveys will be used in future planning initiatives.

The data will be collected using a combination of methodologies appropriate to each survey. These may include: evaluation forms, mail surveys, focus groups, automated and electronic technology (e.g., e-mail, Web-based surveys), and telephone surveys. Systematic surveys of several groups will be folded into the program. Among these are Federal customers and policy makers, state and local officials who rely on NCHS data, the broader educational, research, and public health community, and other data users. Respondents may include data users who register for and/or attend NCHS

sponsored conferences; persons who access the NCHS Web site and the detailed data available through it; consultants; and others. Respondent data items may include (in broad categories) information regarding respondent’s gender, age, occupation, affiliation, location, etc., to be used to characterize responses only. Other questions will attempt to obtain information that will characterize the respondents’ familiarity with and use of NCHS data, their assessment of data content and usefulness, general satisfaction with available services and products, and suggestions for improvement of services and products.

The resulting information will be for NCHS internal use. There is no cost to respondents other than their time to participate in the survey.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of survey	Respondents	Number of respondents	Number of responses/respondent	Average burden/response (in hours)	Total burden hours
