**SUPPLEMENTARY INFORMATION:** The subject amendment to Permit No. 774-1714 issued on June 30, 2004 (68 FR 57673) is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

Permit No. 774-1714-09 authorizes the SWFSC to conduct research on seven pinniped species, 53 cetacean species, and five sea turtle species in the Pacific, Indian, Atlantic, Arctic and Southern Oceans. The permit authorizes Level B harassment during aerial and vessel surveys for photo-identification/photogrammetry, incidental harassment, collection of sloughed skin, and salvage of carcasses and parts; Level A harassment for capture, biopsy sampling, and tagging activities; and the import/export of specimens. The permit holder requests the permit be amended to increase the number of short-beaked and long-beaked common dolphins (*Delphinus spp.*) that may be harassed during vessel and aerial surveys. For each species, up to 60,000 dolphins would be harassed annually during aerial surveys, up to 10,000 approached by vessel for photo-identification and 1,500 for biopsy sampling annually. During research up to 40,000 animals of each species may be incidentally harassed annually. The purposes of this research are to investigate the life history traits and assess the relative reproductive rates of these species off the coast of California and Baja California. The amendment would be valid for the duration of the permit, which currently expires on June 30, 2009.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of this application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: February 24, 2009.
