

be recruited from the general public, the five hard-to-enumerate populations identified as priorities by the Census Bureau, and the eight 'audience segments' defined at the census-tract level.

A key tool for improved quality of self-reported media exposure data is the use of confirmed recall items in which respondents are not only asked to report

on ad viewing, but also on the details of the ad content. This question type will be of great value in the Waves 2 and 3 questionnaires, when the paid advertising campaign will be in full swing. Final advertisements will not be developed, however, until closer to the time of campaign implementation. Specific questionnaire items will be developed and pre-tested after final

advertisements are available for review. Templates of these question formats will be submitted with the original OMB package, but specific questions will be submitted to OMB for review after the formal clearance process has been completed.

Survey Schedule

Three surveys are proposed:

Wave [dates]	Sample size and composition	Comments
1 [Summer/Fall 2009]	3,000 evenly distributed across 6 race/ethnic groups.	
2 [January 10–May 15, 2010]	3,000 evenly distributed across 6 race/ethnic groups.	1,500 cases (evenly distributed across race/ethnic groups) who completed Wave 1 as well.
3 [May 15–August 31, 2010]	4,200, of which 3,000 evenly distributed across 6 race/ethnic groups.	+ 1,500 cases (evenly distributed across race/ethnic groups) who completed Wave 1 (and possibly Wave 2) as well. + 1,200 cases in selected sites for 'observational case control'.

Mixed-Mode Data Collection

NORC will employ an address-based sampling design that marries the comprehensive coverage of address lists with the cost effectiveness of telephone data collection. Through telephone number matching services and advance letter requests to sampled addresses, NORC will begin the data collection effort by telephone, expecting to obtain phone numbers for approximately 60 percent of the selected sample. Cases will then also be solicited for web completion, or completion by mail and by paper-and-pencil Self-Administered Questionnaire. A sub-sample of all cases not completed will be fielded in-person. Telephone interviewing will make use of Computer-Assisted Telephone Interviewing technologies, while in-person data collection will make use of paper and pencil questionnaires. Telephone and in-person data collection will be conducted in the languages of the 2010 census form: English, Spanish, Chinese, Korean, Vietnamese and Russian.

III. Data

- OMB Control Number:* None.
- Form Number:* To be determined.
- Type of Review:* Regular submission.
- Affected Public:* Households.
- Estimated Number of Respondents:* 7,200.
- Estimated Time per Response:* 30 minutes.
- Estimated Total Annual Burden Hours:* 5,100.
- 2009:* 1,500 hours (Wave 1).
- 2010:* 3,600 hours (Waves 2 and 3).
- Estimated Total Annual Cost:* \$0.
- Respondent's Obligation:* Voluntary.
- Legal Authority:* Title 13 U.S.C. 141 and 193.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 25, 2009.
