

4. *Who is required or asked to report:* Holders of and applicants for facility (*i.e.*, nuclear power, research and test reactor) operating licenses and individual operators' licenses.

5. *The number of annual respondents:* 243.

6. *The number of hours needed annually to complete the requirement or request:* 92,008.

7. *Abstract:* 10 CFR part 55, "Operators' Licenses," of the NRC's regulations, specifies information and data to be provided by applicants and facility licenses so that the NRC may make determinations concerning the licensing and requalification of operators for nuclear reactors, as necessary to promote public health and safety. The reporting and recordkeeping requirements contained in 10 CFR part 55 are mandatory for the licensees and applicants affected.

Submit, by May 5, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2009-0041. You may submit your comments by any of the following methods. Electronic comments: Go to <http://www.regulations.gov> and search for Docket No. NRC-2009-0041. Mail comments to NRC Clearance Officer, Gregory Trussell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Questions

about the information collection requirements may be directed to the NRC Clearance Officer, Gregory Trussell (T-5 F53), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-6874, or by e-mail to INFOCOLLECTS.Resource@NRC.GOV.

Dated at Rockville, Maryland, this 24th day of February, 2009.

For the Nuclear Regulatory Commission.

Gregory Trussell,

NRC Clearance Officer, Office of Information Services.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-32023; License No. 42-27055-01; EA-08-261; NRC-2009-0101]

In the Matter of Schlumberger Technology Corporation, Sugar Land, TX; Confirmatory Order Modifying License; Effective Immediately

I

Schlumberger Technology Corporation (Schlumberger or Licensee) is the holder of Materials License No. 42-27055-01 issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to 10 CFR Part 30 on November 29, 1989, last amended on May 1, 2006, and due to expire on December 31, 2015. The license authorizes Schlumberger to possess and use sealed sources for use in conducting density measurements in accordance with conditions specified therein. The license authorizes use at specified field stations located in the States of Alaska, Virginia, West Virginia, and Wyoming. The license also authorizes use at temporary job sites of the licensee anywhere in the United States where the Commission maintains jurisdiction for regulating the use of licensed material.

II

In accordance with NRC protocols, on October 4, 2007, Schlumberger timely reported the loss of a fluid density gauge containing licensed material from its Rock Springs, Wyoming, facility. After identifying and reporting the missing gauge, Schlumberger took extensive actions in an attempt to find the gauge and conducted a thorough investigation into the circumstances surrounding the lost gauge. The gauge was not located. Schlumberger timely filed its written report pursuant to 10 CFR 20.2201 on November 15, 2007.

On January 29, 2008, the NRC conducted an inspection to review the circumstances related to Schlumberger's October 4, 2007, report of a lost fluid density gauge containing licensed material. Following that, on March 3, 2008, the NRC Office of Investigations (OI) began an investigation (OI Case No. 4-2008-031) of Schlumberger Technology Corporation. The investigation was conducted, in part, to determine if a Radiation Safety Officer (RSO) employed by Schlumberger at the Rock Springs, Wyoming, field station willfully falsified inventory documents. Based on the results of the inspection and investigation, the NRC determined that two apparent violations of NRC requirements occurred. The apparent violations involved failures to maintain required records complete and accurate as required by 10 CFR 30.9, and to maintain control over licensed material as required by 10 CFR 20.1802. The NRC also was concerned that the apparent failure to maintain required records complete and accurate as required by 10 CFR 30.9 might have resulted from deliberate misconduct on the part of the RSO at Schlumberger's Rock Springs, Wyoming, field station.

By letter dated December 1, 2008, the NRC transmitted the results of the inspection and investigation to Schlumberger Technology Corporation. In the December 1, 2008, letter, the NRC offered Schlumberger the opportunity to respond to the apparent violations, request a predecisional enforcement conference, or request Alternative Dispute Resolution (ADR) with the NRC in an attempt to resolve issues associated with this matter. In response, on December 5, 2008, Schlumberger requested ADR to resolve this matter with the NRC.

On January 22, 2009, the NRC and Schlumberger Technology Corporation met in an ADR session mediated by a professional mediator, arranged through Cornell University's Institute on Conflict Resolution. ADR is a process in which a neutral mediator, with no decision-making authority, assists the parties in reaching an agreement on resolving any differences regarding the dispute. This confirmatory order is issued pursuant to the agreement reached during the ADR process.

III

The January 22, 2009, ADR session between the NRC and Schlumberger was held in Arlington, Texas, in the NRC Region IV offices. During that ADR session, an Agreement in Principle was reached. The elements of the agreement consisted of the following:

1. The NRC acknowledges that Schlumberger identified a missing gauge and reported it to the NRC, and in addition, the NRC acknowledges that Schlumberger took extensive actions in an attempt to find the gauge and conducted a thorough investigation into the circumstances surrounding the lost gauge. However, the gauge was not found.

2. Within 180 days of the date of this order, Schlumberger will develop and implement a program that requires well site supervisors to ensure licensed material is accounted for and secured at temporary job sites.

3. Within 180 days of the date of this order, Schlumberger will develop and implement a program that requires line managers to review security and accountability of licensed material assigned to their operating locations (base and temporary job sites).

4. Schlumberger's corporate radiation safety staff will conduct annual radiation safety audits at the Rock Springs, Wyoming, field station through calendar year 2010. This shall include audits of temporary job sites that will include, but not be limited to, compliance with security and transportation regulations associated with licensed radioactive material.

5. Within 180 days of the date of this order, Schlumberger will develop and implement a required annual training program that describes the requirements in 10 CFR 30.9 and 10 CFR 30.10 to employees using licensed material. This training is to include the potential consequences individuals may experience for violations of 10 CFR 30.10. This training will be included in Schlumberger's initial training program.

6. Within 90 days of the date of this order, Schlumberger will submit a license amendment request, for Materials License No. 42-27055-01, to incorporate the changes to its inventory procedure, to include the photographic inventory process.

7. The NRC agrees not to pursue any further enforcement action against Schlumberger in connection with the NRC's December 1, 2008, Inspection Report 030-32023/08-001 issued to Schlumberger and will not count this matter as previous enforcement for the purposes of assessing potential future enforcement action civil penalty assessments in accordance with Section VI.C of the Enforcement Policy. The NRC, however, will evaluate Schlumberger's compliance with this confirmatory order; and consider enforcement action for any violations identified, as appropriate.

8. In consideration of the extensive actions taken and the additional actions

to be taken by Schlumberger, the NRC will issue a civil monetary penalty only in the base amount of \$3250.

Schlumberger will pay the civil penalty within 30 days of the effective date of this order.

9. The NRC acknowledges the extensive actions taken by Schlumberger, which include:

- In 2005, Schlumberger started a program entitled, "U.S. Compliance Audits," to conduct audits every 3 years of each field station by a corporate team of experts. These audits include temporary job sites.

- Schlumberger's local site personnel conduct annual self-assessments of various programs, including the radiation safety program.

- There is a pre-existing Schlumberger code of ethics which includes a tiered approach on discipline. Management involvement is included in the process. Employees are given mechanisms to identify and report perceived non-conformances.

- Photographic inventories of licensed material are conducted at least annually. Schlumberger's business system generates a random, 6-digit number on a monthly basis that must be in the photograph to ensure the inventory occurs in a given month.

- Confirmation inventories of licensed radioactive material are conducted every 3 months.

- Third-party leak test analysis results are provided to the corporate radiation safety office for review.

- Training has been provided to Schlumberger's U.S. employees, who work with licensed materials, on the legal ramifications of willful failures to follow NRC regulations.

- Training has been provided to Schlumberger's Rock Springs, Wyoming, personnel on security for transport and shipping requirements. This training was conducted in December 2007 and January 2008.

- Training has been provided to Schlumberger's U.S. employees on radiation safety and control of licensed material. This training was conducted during the first quarter of 2008.

- World-wide training on security and control of gauges and inventory controls (photographic inventory) was conducted.

- A Quality Health Safety and Environment alert was issued within the company describing the circumstances surrounding the event related to Schlumberger's October 4, 2007, report of a lost fluid density gauge, and discussing the importance of the security of licensed material. This alert went out to site management located in the United States and Canada.

- Procedural changes were made on how and where licensed materials are stored at Schlumberger's Rock Springs, Wyoming, field station. An enhanced security system is now in place at Rock Springs, Wyoming.

It was noted in the agreement that the NRC concluded that two violations of NRC requirements occurred. The violations involved: (1) A failure to maintain control over licensed material occurred, which constitutes a violation of 10 CFR 20.1802, and (2) a site RSO at Schlumberger's field station located at Rock Springs, Wyoming, deliberately failed to provide complete and accurate information on the records documenting physical inventories, which constitutes a violation of 10 CFR 30.9. The NRC acknowledges that Schlumberger does not concede that any violations occurred.

On February 23, 2009, the Licensee consented to issuing this Order with the commitments, as described in Section V below. The Licensee further agreed that this Order is to be effective upon issuance and that it has waived its right to a hearing.

IV

Since the licensee has agreed to take additional actions to address NRC concerns, as set forth in Item III above, the NRC has concluded that its concerns can be resolved through issuance of this Order.

I find that the Licensee's commitments as set forth in Section V are acceptable and necessary and conclude that with these commitments the public health and safety are reasonably assured. In view of the foregoing, I have determined that public health and safety require that the Licensee's commitments be confirmed by this Order. Based on the above and the Licensee's consent, this Order is immediately effective upon issuance.

Accordingly, pursuant to Sections 81, 161b, 161i, 161o, 182 and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202 and 10 CFR Parts 20 and 30 *it is hereby ordered*, effective immediately, that License No. 42-27055-01 is modified as follows:

1. Within 180 days of the effective date of this order, Schlumberger will develop and implement a program that requires well site supervisors to ensure licensed material is accounted for and secured at temporary job sites.

2. Within 180 days of the effective date of this order, Schlumberger will develop and implement a program that requires line managers to review security and accountability of licensed

material assigned to their operating locations (base and temporary job sites).

3. Schlumberger's corporate radiation safety staff will conduct annual radiation safety audits at the Rock Springs, Wyoming, field station through calendar year 2010. This shall include audits of temporary job sites that will include, but not be limited to, compliance with security and transportation regulations associated with licensed radioactive material.

4. Within 180 days of the effective date of this order, Schlumberger will develop and implement a required annual training program that describes the requirements in 10 CFR 30.9 and 10 CFR 30.10 to employees using licensed material. This training is to include the potential consequences individuals may experience for violations of 10 CFR 30.10. This training will be included in Schlumberger's initial training program.

5. Within 90 days of the effective date of this order, Schlumberger will submit a license amendment request, for Materials License No. 42-27055-01, to incorporate the changes to its inventory procedure, to include the photographic inventory process.

6. Within 30 days of the effective date of this order, Schlumberger Technology Corporation must pay the civil penalty of \$3,250 in accordance with NUREG/BR-0254 and submit to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555, a statement indicating when and by what method payment was made.

7. Schlumberger shall continue the following actions:

- "U.S. Compliance Audits" shall be conducted every 3 years at each field station by a corporate team of experts. These audits will include temporary job sites.

- Annual self-assessments shall be conducted by site personnel. These self-assessments include the radiation safety program.

- Schlumberger will maintain its pre-existing code of ethics, which includes a tiered approach on discipline.

- Confirmation inventories of licensed radioactive material shall be conducted every 3 months.

- Third-party leak test analysis results shall be provided to the corporate radiation safety office for review.

- The enhanced security system shall remain in place at Schlumberger's Rock Springs, Wyoming, field station, provided that licensed material is used or stored therein.

The license, which is the subject of this order, is modified in accordance with the requirements of the order. As

such, in the event of the transfer of Materials License No. 42-27055-01 held by Schlumberger Technology Corporation, by the virtue of the sale (of the facility or the license holder), merger, bankruptcy, agreement or otherwise, the requirements of this confirmatory order shall survive any such transfer and shall be binding on the new license holder.

The Regional Administrator, NRC Region IV, may, in writing, relax or rescind any of the above conditions upon demonstration by the Licensee of good cause.

VI

Any person adversely affected by this Confirmatory Order, other than the Licensee, may request a hearing within 20 days of its issuance. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be directed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and include a statement of good cause for the extension.

A request for a hearing must be filed in accordance with the NRC E-Filing rule, which the NRC promulgated in August 2007, 72 FR 49,139 (Aug. 28, 2007). The E-Filing process requires participants to submit and serve documents over the Internet or, in some cases, to mail copies on electronic optical storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements associated with E-Filing, at least five (5) days prior to the filing deadline the requestor must contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415-1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any NRC proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances when the requestor (or its counsel or representative) already holds an NRC-issued digital ID certificate). Each requestor will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer is free and is available at

<http://www.nrc.gov/site-help/e-submittals/install-viewer.html>.

Information about applying for a digital ID certificate also is available on NRC's

public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a requestor has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer, it can then submit a request for a hearing through EIE. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its document through EIE. To be timely, electronic filings must be submitted to the EIE system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The EIE system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, any others who wish to participate in the proceeding (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request is filed so that they may obtain access to the document via the E-Filing system.

A person filing electronically may seek assistance through the Contact Us link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC technical help line, which is available between 8:30 a.m. and 4:15 p.m., Eastern Time, Monday through Friday. The help line number is (800) 397-4209 or locally, (301) 415-4737.

Participants who believe that they have good cause for not submitting documents electronically must file a motion, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by (1) first class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the

document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket, which is available to the public at http://ehd.nrc.gov/EHD_Proceeding/home.asp, unless excluded pursuant to an order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, Participants are requested not to include copyrighted materials in their works.

If a person other than Schlumberger Technology Corporation requests a hearing, that person shall set forth with particularity the manner in which his interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If the hearing is requested by a person whose interest is adversely affected, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Confirmatory Order should be sustained. In the absence of any request for hearing, or written approval of an extension of time in which to request a hearing, the provisions specified in Section V above shall be final 20 days from the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions specified in Section V shall be final when the extension expires if a hearing request has not been received. A request for hearing shall not stay the immediate effectiveness of this order.

Dated this 24th day of February 2009.

For the Nuclear Regulatory Commission.

Elmo E. Collins,

Regional Administrator.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. IC-28639]

Notice of Applications for Deregistration Under Section 8(f) of the Investment Company Act of 1940

February 27, 2009.

The following is a notice of applications for deregistration under section 8(f) of the Investment Company Act of 1940 for the month of February, 2009. A copy of each application may be obtained for a fee at the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549-1520 (tel. 202-551-5850). An order granting each application will be issued unless the SEC orders a hearing. Interested persons may request a hearing on any application by writing to the SEC's Secretary at the address below and serving the relevant applicant with a copy of the request, personally or by mail. Hearing requests should be received by the SEC by 5:30 p.m. on March 24, 2009, and should be accompanied by proof of service on the applicant, in the form of an affidavit or, for lawyers, a certificate of service. Hearing requests should state the nature of the writer's interest, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Secretary, U.S. Securities and Exchange Commission, 100 F Street, NE., Washington, DC 20549-1090.

For Further Information Contact: Diane L. Titus at (202) 551-6810, SEC, Division of Investment Management, Office of Investment Company Regulation, 100 F Street, NE., Washington, DC 20549-4041.

Short-Term Investments Trust II

[File No. 811-22259]

Summary: Applicant seeks an order declaring that it has ceased to be an investment company. On December 8, 2008, applicant transferred its assets to a corresponding series of Short-Term Investments Trust, based on net asset value. Expenses of approximately \$164,210 incurred in connection with the reorganization were paid by Invesco Aim Advisors, Inc., applicant's investment adviser.

Filing Dates: The application was filed on December 9, 2008, and amended on February 11, 2009.

Applicant's Address: 11 Greenway Plaza, Suite 100, Houston, TX 77046-1173.

Putnam New York Investment Grade Municipal Trust

[File No. 811-7274]

Summary: Applicant, a closed-end investment company, seeks an order declaring that it has ceased to be an investment company. Applicant's Municipal Income Preferred Shares, Series Th were redeemed on May 25, 2007. On June 25, 2007, applicant transferred its assets to Putnam New York Tax Exempt Income Trust, based on net asset value. Expenses of approximately \$276,806 incurred in connection with the reorganization were paid by applicant.

Filing Dates: The application was filed on December 23, 2008 and amended on February 10, 2009.

Applicant's Address: One Post Office Sq., Boston, MA 02109.

Dollar Strategy Global Trust

[File No. 811-22122]

Summary: Applicant seeks an order declaring that it has ceased to be an investment company. On November 24, 2008, applicant made a liquidating distribution to its shareholders, based on net asset value. Expenses of \$1,250 incurred in connection with the liquidation were paid by Glengarry Advisors, LP, applicant's investment adviser.

Filing Dates: The application was filed on December 23, 2008 and amended on February 6, 2009.

Applicant's Address: 81790 Golden Star Way, La Quinta, CA 92253.

Fortress Brookdale Investment Fund LLC

[File No. 811-10127]

Summary: Applicant, a closed-end investment company, seeks an order declaring that it has ceased to be an investment company. On November 28, 2008, applicant made a liquidating distribution to its shareholders, based on net asset value. Preferred shareholders received cash payments equal to the face amount of their securities plus preferred dividends accrued. Expenses of \$6,000 incurred in connection with the liquidation were paid by applicant.

Filing Dates: The application was filed on December 10, 2008 and amended on February 2, 2009.

Applicant's Address: 1345 Avenue of the Americas, 46th Floor, New York, NY 10105.

Diamond Portfolio Investment Trust

[File No. 811-22129]

Summary: Applicant seeks an order declaring that it has ceased to be an investment company. On December 29,
