Proposed Project

Title: Head Start Family and Child Experiences Survey (FACES 2009).
OMB No.: 0970-0151.
Description: The Administration for Children and Families (ACF), U.S.

Department of Health and Human Services, is planning to collect data on a new cohort for the Head Start Family and Child Experiences Survey (FACES). FACES is a longitudinal study of a nationally representative sample of Head Start programs and children that will collect information for Head Start performance measures. Data for FACES will be collected annually through interviews with Head Start parents, teachers, program directors and other Head Start staff, as well as direct child assessments and observations of Head Start classrooms.

Data will be collected on a sample of approximately 3,400 children and families from 60 Head Start programs. Data collection will include assessments of Head Start children, interviews with their parents, and ratings by their Head Start teachers. Site visitors will interview Head Start teachers in

approximately 405 classrooms and make observations of the types and quality of classroom activities. Interviews will also be conducted with Head Start program directors and other staff. A follow-up for children in Kindergarten will include child assessments, parent interviews, and teacher questionnaires and child ratings.

The purpose of this data collection is to fulfill the requirements of the Government Performance and Results Act (GPRA) of 1993 (Pub. L. 103-62), and by the 1994 reauthorization of the Head Start program (Head Start Act, as amended, May 18, 1994, Section 649 (d)), which call for periodic assessments of Head Start's quality and effectiveness.

Respondents: Parents of Head Start Children, Head Start Children, Head Start Teachers, Head Start Program Directors and Staff, and Kindergarten Teachers of former Head Start enrollees.
