SUPPLEMENTARY INFORMATION: The names of the 13 members of the Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives for 2020 are available at <http://www.healthypeople.gov>.

Purpose of Meeting: Every 10 years, through the Healthy People initiative, HHS leverages scientific insights and lessons from the past decade, along with the new knowledge of current data, trends, and innovations to develop the next iteration of national health promotion and disease prevention objectives. Healthy People provides science-based, 10-year national objectives for promoting health and preventing disease. Since 1979, Healthy People has set and monitored national health objectives to meet a broad range of health needs, encourage collaborations across sectors, guide individuals toward making informed health decisions, and measure the impact of our prevention and health promotion activities. Healthy People 2020 will reflect assessments of major risks to health and wellness, changing public health priorities, and emerging technologies related to our nation's health preparedness and prevention.

Public Participation at Meeting: Members of the public are invited to listen to the online Advisory Committee meetings. There will be no opportunity for oral public comments during the online Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives for 2020 meetings. Written comments are welcome throughout the development process of the national health promotion and disease prevention objectives for 2020. They can be submitted through the Healthy People Web site at: <http://www.healthypeople.gov/hp2020/comments/> or they can be e-mailed to HP2020@hhs.gov. Please note that the public comment Web site will be updated throughout the Healthy People development process, so people should return to the site frequently and provide their input.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC, or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project:

The National Survey of Family Growth (NSFG), (0920-0314)—Revision—National Center for Health

Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C. 242k), as amended, authorizes that the Secretary of Health and Human Services (DHHS), acting through NCHS, shall collect statistics on "family formation, growth, and dissolution," as well as "determinants of health" and "utilization of health care" in the United States. This three-year clearance request includes the data collection in 2009-2012 for the continuous NSFG. The major change in this revision is an increase in the burden hours. This is due to the fact that the 2006 clearance contained a small pretest and two years of the full survey. This submission contains three years of the full survey which causes an increase in burden. No questionnaire changes are requested through 2010; some limited changes may be requested after that, to be responsive to emerging public policy issues.

The National Survey of Family Growth (NSFG) was conducted periodically between 1973 and 2002, and continuously since 2006, by the National Center for Health Statistics, CDC. Each year, about 14,000 households are screened, with about 5,000 participants interviewed annually. Participation in the NSFG is completely voluntary and confidential. Interviews average 60 minutes for males and 80 minutes for females. The response rate since 2006 is about 75 percent for both males and females.

The NSFG program produces descriptive statistics which measure factors associated with birth and pregnancy rates, including contraception, infertility, marriage, divorce, and sexual activity, in the U.S. population 15-44; and behaviors that affect the risk of sexually transmitted diseases (STD), including HIV, and the medical care associated with contraception, infertility, and pregnancy and childbirth.

NSFG data users include the DHHS programs that fund it, including CDC/NCHS and seven others (The Eunice Kennedy Shriver National Institute for Child Health and Human Development (NIH/NICHHD); the Office of Population Affairs (DHHS/OPA); the Office of the Assistant Secretary for Planning and Evaluation (DHHS/OASPE); the Administrations for Children and Families; the Children's Bureau (DHHS/ACF/CB); the CDC's Division of HIV/AIDS Prevention (CDC/DHAP); the CDC's Division of STD Prevention (CDC/DSTD); and the CDC's Division of

Reproductive Health (CDC/DRH)). The NSFG is also used by state and local governments; private research and action organizations focused on men's and women's health, child well-being,

and marriage and the family; academic researchers in the social and public health sciences; journalists, and many others.

There is no cost to respondents other than their time. The total estimated annualized burden hours are 7,442.

ESTIMATED ANNUALIZED BURDEN TABLE

Administration for Children and Families

Submission for OMB Review; Comment Request

Proposed Project

Title: Head Start Family and Child Experiences Survey (FACES 2009).
OMB No.: 0970-0151.
Description: The Administration for Children and Families (ACF), U.S.

Department of Health and Human Services, is planning to collect data on a new cohort for the Head Start Family and Child Experiences Survey (FACES). FACES is a longitudinal study of a nationally representative sample of Head Start programs and children that will collect information for Head Start performance measures. Data for FACES will be collected annually through interviews with Head Start parents, teachers, program directors and other Head Start staff, as well as direct child assessments and observations of Head Start classrooms.

Data will be collected on a sample of approximately 3,400 children and families from 60 Head Start programs. Data collection will include assessments of Head Start children, interviews with their parents, and ratings by their Head Start teachers. Site visitors will interview Head Start teachers in

approximately 405 classrooms and make observations of the types and quality of classroom activities. Interviews will also be conducted with Head Start program directors and other staff. A follow-up for children in Kindergarten will include child assessments, parent interviews, and teacher questionnaires and child ratings.

The purpose of this data collection is to fulfill the requirements of the Government Performance and Results Act (GPRA) of 1993 (Pub. L. 103-62), and by the 1994 reauthorization of the Head Start program (Head Start Act, as amended, May 18, 1994, Section 649 (d)), which call for periodic assessments of Head Start's quality and effectiveness.

Respondents: Parents of Head Start Children, Head Start Children, Head Start Teachers, Head Start Program Directors and Staff, and Kindergarten Teachers of former Head Start enrollees.
