Total Respondents: 73,373.

Estimated Total Burden Hours: 15,593.

Total Burden Cost (capital/startup): N/A.

Total Burden Cost (operating/maintaining): The estimated cost of funding this data collection effort in 2008 was \$2,712,035. This estimate includes the ongoing maintenance of the infrastructure needed to administer the CATI system, ongoing data communication to and from the Job Corps Data Center, data collection using telephone interviews from trained staff who are non-Job Corps employees, data processing including coding of occupational and industry information, and preparation of summary data tabulations. Supervision of this total system is also included here.

There are no costs to the respondents for participating in this survey. All telephone or postage costs for contacting the respondents are borne by the Federal government through the data collection contractors.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Esther R. Johnson,

Administrator, Office of Job Corps.

DEPARTMENT OF LABOR

Employment Standards Administration

Proposed Extension of the Approval of Information Collection Requirements

ACTION: Notice.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent

burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning its proposal to extend OMB approval of the information collection: Health Insurance Claim Form (OWCP–1500). A copy of the proposed information collection request can be obtained by contacting the office listed below in the addresses section of this Notice.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before May 11, 2009.

ADDRESSES: Mr. Steven D. Lawrence, U.S. Department of Labor, 200 Constitution Ave., NW., Room S–3201, Washington, DC 20210, telephone (202) 693–0292, fax (202) 693–1451, e-mail Lawrence.Steven@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:

I. Background

The Office of Workers' Compensation Programs (OWCP) is the agency responsible for administration of the Federal Employees' Compensation Act (FECA), 5 U.S.C. 8101 *et seq.*, the Black Lung Benefits Act (BLBA), 30 U.S.C. 901 *et seq.*, and the Energy Employees Occupational Illness Compensation Program Act of 2000 (EEOICPA), 42 U.S.C. 7384 *et seq.* All three of these statutes require that OWCP pay for

medical treatment of beneficiaries; BLBA also requires that OWCP pay for medical examinations and related diagnostic services to determine eligibility for benefits under that statute. Form OWCP–1500 is used by OWCP and contractor bill payment staff to process bills for medical services provided by medical professionals other than medical services provided by hospitals, pharmacies and certain other medical providers. To consider the appropriateness of the requested payment in a timely fashion, it is essential that provider bills be submitted on a standard form that will capture the critical data elements needed to evaluate the bill, such as procedure and diagnosis codes.

This information collection is currently approved for use through October 31, 2009.

II. Review Focus

The DOL is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

The DOL seeks the approval for the extension of this currently approved information collection. *Type of Review:* Extension.

SUPPLEMENTARY INFORMATION:

I. Background

Section 302(a) of the Federal Mine Safety and Health Act of 1977 (Mine Act), 30 U.S.C. 846, requires that a roof control plan and revisions thereof suitable to the roof conditions and mining system of each coal mine be first approved by the Secretary of Labor (Secretary) before implementation by the operator. The plan must show the type of support and spacing approved by the Secretary, and the plan must be reviewed at least every 6 months by the Secretary.

Under 30 CFR 75.221, the information required to be submitted and approved in the roof control plan includes the following: (1) The name and address of the company; (2) the name, address, mine identification number, and location of the mine; (3) the name and title of the company official responsible for the plan; (4) a description of the mine strata; (5) a description and drawings of the sequence of installation and spacing of supports for each method of mining used; (6) the maximum distance that an ATRS system is to be set beyond the last row of permanent support (if appropriate); (7) specifications and installation

procedures for liners or arches (if appropriate); (8) drawings indicating the planned width of openings, size of pillars, method of pillar recovery, and the sequence of mining pillars; (9) a list of all support materials required to be used in the roof, face and rib control system; (10) the intervals at which test holes will be drilled (if appropriate); and (11) a description of the methods to be used for the protection of persons. Under 30 CFR 75.215, the roof control plan for each longwall mining section is required to specify the methods that will be used to maintain a safe travelway out of the section through the tailgate side of the longwall and the procedures that will be followed if a ground failure prevents travel out of the section through the tailgate side of the longwall.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection requirement related to Roof Control Plans. MSHA is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of MSHA's functions, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Address the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submissions of responses) to minimize the burden of the collection of information on those who are to respond.

A copy of the proposed information collection request can be obtained by contacting the employee listed in the ADDRESSES section of this notice or viewed on the Internet by accessing the MSHA home page (<http://www.msha.gov/>) and selecting "Rules & Regs", and then selecting "FedReg. Docs". On the next screen, select "Paperwork Reduction Act Supporting Statement" to view documents supporting the Federal Register Notice.

III. Current Actions

Falls of roof, face and rib continue to be a cause of injuries and death in underground coal mines. All
