

antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding APOs

This notice also serves as a reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This notice is issued and published in accordance with section 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: March 10, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) proposes to collect information about fishing expenses in the American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI) boat-based reef fish, bottomfish, and pelagics fisheries with which to conduct economic analyses that will improve fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Steven Fishery Conservation and Management Act (U.S.C. 1801 et seq.), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. An example of these performance measures: the economic data collected will allow quantitative assessment of the fisheries sector's social and economic contribution, linkages and impacts of the fisheries sector to the overall economy through Input-output (I-O) models analyses. The results from I-O analyses will not only provide indicators of social-economic benefits of the marine ecosystem, a performance measure in the NMFS Strategic Operating Plans, but also be used to assess how fishermen and economy will be impacted by and respond to regulations likely to be considered by fishery managers. These data will be collected in conjunction with catch and effort data already being collected in this fishery as part of its creel survey¹ program. In general, participation in the economic data collection will be voluntary.

II. Method of Collection

The economic surveys will be conducted in-person interview when a fishing trip is completed. Captains of selected vessels by the creel survey will

Notice of Continuation and Expansion of a Disease Management Demonstration Project for TRICARE Standard Beneficiaries

AGENCY: Department of Defense.

ACTION: Notice of demonstration project.

SUMMARY: This notice is to advise interested parties of the continuation and expansion of a Military Health System (MHS) demonstration project entitled "Disease Management Demonstration Project for TRICARE Standard Beneficiaries". The original demonstration notice was published on June 13, 2007 (72 FR 32628-32629) and described a demonstration project to provide disease management (DM) services to TRICARE Standard beneficiaries in addition to the TRICARE Prime beneficiaries who were already entitled to such services. TRICARE began the demonstration project in March 2007 for Standard beneficiaries and this demonstration project has enabled the MHS to provide uniform policies and practices on disease and chronic care management throughout the TRICARE network. Additionally, the demonstration has helped determine the effectiveness of DM programs in improving the health status of beneficiaries with targeted
