March 12, 2009.

Take notice that on March 5, 2009, Questar Overthrust Pipeline Company (Overthrust), 180 East 100 South, Salt Lake City, Utah 84111, filed an application to section 7(c) of the Natural Gas Act (NGA) seeking authority to expand its interstate natural-gas transmission system by constructing and operating two new compressor packages. One compressor package will be located at a new Compressor Station called Point of Rocks and the other compressor package will be installed in a vacant bay in an existing building at the existing Rock Springs Compressor Station. The proposed Point of Rocks station and the Rock Springs station are both located within Sweetwater County, Wyoming, all as more fully set forth in the application. It is further explained that Overthrust has

negotiated a Transportation Service Agreement with Encana Marketing (USA) Inc. that has subscribed for the entire 300,000 Dth/d of incremental capacity created by the project.

Overthrust states that by letter dated October 9, 2008, in Docket No. PF06-34-000, the Commission's Office of Energy Projects granted Overthrust's September 26, 2008, request to utilize the Commission's Pre-Filing Process for the planned Compression Expansion. Overthrust has also submitted an applicant-prepared Draft Environmental Assessment that was prepared during the Pre-Filing Process that was included with this application.

Any questions regarding Overthrust's proposal in this application should be Directed to L. Bradley Burton, Manager, Federal Regulatory Affairs, Questar Pipeline Company, 180 East 100 South, P.O.
