DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Project:

Title: Supporting Healthy Marriage (SHM) Demonstration and Evaluation Project—Wave 2 Survey.

OMB No. 0970-0339.

The Administration for Children and Families (ACF), U.S. Department of Health and Human Services, is conducting a demonstration and evaluation called the Supporting Healthy Marriage (SHM) Project. SHM is a test of marriage education demonstration programs in eight sites that will enroll about 800 couples per site, with half assigned to participate in the SHM program, and the other half assigned to the control group.

SHM is designed to inform program operators and policymakers of the

effectiveness of programs designed to help low-income married couples strengthen and maintain healthy marriages and improve outcomes for adults and children.

This notice of information collection is for a second adult survey instrument and new instruments to obtain information from children and youth about 30 months after study entry and for an extension of the period of approval for the first survey and observation instruments, which are used to obtain information from research participants about 12 months after study entry.

The proposed second wave of information collection will involve:

- An adult survey instrument to assess study participants' longer term marital status and stability, quality of relationships, and a range of other measures.
- A survey of focal children of study participants in both the program and control groups who are over 8 years of age (the youth survey).
- A direct child assessment of focal children of study participants in both the program and the control groups who are 8 years of age or younger.

Respondents: Low-income married couples and their children in the SHM evaluation research sample.
