

notification unless there are changes to the reported information; EPCRA section 304 notification is only when a release occurs from the facility.

Estimated Total Annual Burden: 295,756 hours.

Estimated Total Annual Cost: \$13,134,444, including \$68,719 annualized O&M costs. There are no capital costs associated with this ICR.

Changes in the Estimates: Based on the information received from the Regions, the number of facilities subject to section 302 increased by 18,080 from the previous ICR. EPA also noticed that the release notification calls to the National Response Center also increased by 10,502 from the previous ICR. EPA underestimated the burden incurred by facilities in developing written follow-up reports under section 304 in previous ICRs. In this ICR, EPA developed an average for the burden incurred to comply with section 304 reporting based on the information provided by industries that the Agency contacted.

Due to the reasons above, there is an increase of 112,409 hours in the estimated average annual burden in this ICR from what is currently approved.

Acting Director, Collection Strategies Division.
