

Flooding source(s)	Location of referenced elevation**	*Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground		Communities affected
		Effective	Modified	
	Approximately 700 feet upstream of Williamsburg Drive.	None	+1,238	

\* National Geodetic Vertical Datum.

+ North American Vertical Datum.

# Depth in feet above ground.

\*\* BFEs to be changeinclude the listed downstream and upstream BFEs, and include BFEs located on the stream reach between the referenced locations above. Please refer to the revised Flood Insurance Rate Map located at the community map repository (see below) for exact locations of all BFEs to be changed.

Send comments to William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472.

#### ADDRESSES

##### City of Lincoln

Maps are available for inspection at Building & Safety Department, 555 South 10th Street, Lincoln, NE 68508.

##### City of Waverly

Maps are available for inspection at City Hall, 14130 Lancashire Street, Waverly, NE 68462.

##### Unincorporated Areas of Lancaster County

Maps are available for inspection at Building & Safety Department, 555 South 10th Street, Lincoln, NE 68508.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: January 8, 2009.

##### Michael K. Buckley,

*Acting Assistant Administrator, Mitigation Directorate, Department of Homeland Security, Federal Emergency Management Agency.*

[FR Doc. E9-6642 Filed 3-24-09; 8:45 am]

BILLING CODE 9110-12-P

#### DEPARTMENT OF HOMELAND SECURITY

##### Federal Emergency Management Agency

##### 44 CFR Part 67

[Docket ID FEMA-2008-0020; Internal Agency Docket No. FEMA-B-1016]

##### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule; correction.

**SUMMARY:** On November 5, 2008, FEMA published in the **Federal Register** a proposed rule that contained an erroneous table. This notice provides corrections to that table, to be used in lieu of the information published at 73 FR 65811. The table provided here

represents the flooding source, location of referenced elevation, effective and modified elevation, and communities affected for Kankakee County, Illinois and Incorporated Areas. Specifically, it addresses flooding source South Branch Rock Creek.

##### FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151 or (e-mail) [bill.blanton@dhs.gov](mailto:bill.blanton@dhs.gov).

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA) publishes proposed determinations of Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain

management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

##### Correction

In the proposed rule published at 73 FR 65811, in the November 5, 2008 issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Kankakee County, Illinois and Incorporated Areas" addressed flooding source South Branch Rock Creek. That table contained inaccurate information as to the location of referenced elevation, effective and modified elevation in feet, or communities affected for these flooding sources. In this notice, FEMA is publishing a table containing the accurate information, to address these prior errors. The information provided below should be used in lieu of that previously published.

Flooding source(s)	Location of referenced elevation**	* Elevation in feet (NGVD) + Elevation in feet (NAVD) # Depth in feet above ground		Communities affected
		Effective	Modified	
<b>Kankakee County, Illinois and Incorporated Areas</b>				
South Branch Rock Creek ....	Upstream side of South Locust Street ..... Approximately 2,600 feet downstream of Sycamore Street.	None	+665	Kankakee County (Unincorporated Areas).
		None	+665	

Dated: January 22, 2009.
