Proposed Project

National Vital Statistics Report Forms (0920-0213)—Reinstatement with change—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The compilation of national vital statistics dates back to the beginning of the 20th century and has been conducted since 1960 by the Division of Vital Statistics of the National Center for Health Statistics, CDC. The collection of the data is authorized by 42 U.S.C. 242k. This submission requests approval to collect the monthly and annually summary statistics for three years.

The Monthly Vital Statistics Report forms provide counts of monthly occurrences of births, deaths, infant deaths, marriages, and divorces. Similar data have been published since 1937

and are the sole source of these data at the National level. The data are used by the Department of Health and Human Services and by other government, academic, and private research and commercial organizations in tracking changes in trends of vital events. Respondents for the Monthly Vital Statistics Report Form are registration officials in each State and Territory, the District of Columbia, and New York City. In addition, local (county) officials in New Mexico who record marriages occurring and divorces and annulments granted in each county of New Mexico will use this form. This form is designed to collect counts of monthly occurrences of births, deaths, infant deaths, marriages, and divorces immediately following the month of occurrence.

The Annual Vital Statistics Occurrence Report Form collects final annual counts of marriages and divorces by month for the United States and for each State. The statistical counts requested on this form differ from provisional estimates obtained on the Monthly Vital Statistics Report Form in that they represent complete counts of marriages, divorces, and annulments occurring during the months of the prior year. These final counts are usually available from State or county officials about eight months after the end of the data year. The data are widely used by government, academic, private research, and commercial organizations in tracking changes in trends of family formation and dissolution. Respondents for the Annual Vital Statistics Occurrence Report Form are registration officials in each State and Territory, the District of Columbia, and New York City.

There is no cost to respondents other than their time. The total estimated annualized burden hours are 211.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	No. of respondents	No. of responses per respondents	Average burden per response (in hours)
State, Territory and New Mexico County officials.	Monthly Vital Statistics Report	91	12	10/60
State, Territory and Other officials	Annual Vital Statistics Occurrence Report.	58	1	30/60

[CMS-2284-N]

Deeming Notice for the College of American Pathologists (CAP) as an Accrediting Organization Under the Clinical Laboratory Improvement Amendments of 1988

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Notice.

SUMMARY: This notice announces the application of the College of American Pathologists (CAP) for approval as an accreditation organization for clinical laboratories under the Clinical Laboratory Improvement Amendments of 1988 (CLIA) program for all specialties and subspecialties. In this notice, we announce the approval and grant the CAP deeming authority for all CLIA specialties and subspecialties for a period of 6 years. We have determined that the CAP meets or exceeds the applicable CLIA requirements.

DATES: *Effective Date:* This notice is effective from March 27, 2009 until March 27, 2015.

FOR FURTHER INFORMATION CONTACT: Val Coppola, (410)786-3531.

SUPPLEMENTARY INFORMATION:

I. Background

On October 31, 1988, the Congress enacted the Clinical Laboratory Improvement Amendments of 1988 (CLIA), Public Law 100-578. CLIA amended section 353 of the Public Health Service Act. We issued a final rule implementing the accreditation provisions of CLIA on July 31, 1992 (57 FR 33992). Under the CLIA program, CMS may grant deeming authority to an accreditation organization that accredits clinical laboratories if the organization meets certain requirements. An organization's requirements for laboratories accredited under its program must be equal to or more stringent than the applicable CLIA program requirements in 42 CFR part 493 (Laboratory Requirements). This requirement and others in subpart E of that part (Accreditation by a Private,
