BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2009-0166]

Issuance and Availability of Draft Regulatory Guide

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance and availability of Draft Regulatory Guide 1211.

FOR FURTHER INFORMATION CONTACT:

Wallace E. Norris, Division of Engineering, Office of Nuclear Regulatory Research, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone (301) 251-7650 or e-mail to Wallace.Norris@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment a draft regulatory guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The draft regulatory guide (DG), titled, "Materials and Inspections for Reactor Vessel Closure Studs," is temporarily identified by its task number, DG-1211, which should be mentioned in all related correspondence. DG-1211 is the proposed Revision 1 of Regulatory Guide 1.65.

General Design Criterion 1, "Quality Standards and Records," of Appendix A, "General Design Criteria for Nuclear Power Plants," to Title 10, Part 50, "Domestic Licensing of Production and Utilization Facilities," of the Code of Federal Regulations (10 CFR part 50), requires, in part, that structures, systems, and components important to safety be designed, fabricated, erected, and tested to quality standards commensurate with the importance of

the safety function to be performed. Where generally recognized codes and standards are used, Criterion 1 requires that they be identified and evaluated to determine their applicability, adequacy, and sufficiency and be supplemented or modified as necessary to ensure a quality product in keeping with the required safety function.

Criterion 30, "Quality of Reactor Coolant Pressure Boundary," of the same appendix requires, in part, that components that are part of the reactor coolant pressure boundary be designed, fabricated, erected, and tested to the highest practical quality standards.

Criterion 31, "Fracture Prevention of Reactor Coolant Pressure Boundary," requires, in part, that the reactor coolant pressure boundary be designed with sufficient margin to assure that when stressed under operating, maintenance, testing, and postulated accident conditions (1) the boundary behaves in a nonbrittle manner and (2) the probability of rapidly propagating fracture is minimized.

Appendix B, "Quality Assurance Criteria for Nuclear Power Plants and Fuel Reprocessing Plants," to 10 CFR part 50 requires, in part, that measures be established for the control of special processing such as heat treating and that proper testing be performed.

II. Further Information

The NRC staff is soliciting comments on DG-1211. Comments may be accompanied by relevant information or supporting data, and should mention DG-1211 in the subject line. Comments submitted in writing or in electronic form will be made available to the public in their entirety through the NRC's Agencywide Documents Access and Management System (ADAMS).

Personal information will not be removed from the comments. Comments may be submitted by any of the following methods:

1. *Mail to:* Rulemaking and Directives Branch, Mail Stop: TWB-05-B01M, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

2. *Fax to:* Rulemaking and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission at (301) 492-3446.

Requests for technical information about DG-1211 may be directed to Wallace E. Norris at (301) 251-7650 or e-mail to Wallace.Norris@nrc.gov.

Comments would be most helpful if received by June 12, 2009. Comments received after that date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before

this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

Electronic copies of DG-1211 are available through the NRC's public Web site under Draft Regulatory Guides in the "Regulatory Guides" collection of the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/doc-collections/>. Electronic copies are also available in ADAMS (<http://www.nrc.gov/reading-rm/adams.html>), under Accession No. ML082820439.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR), which is located at Room O-1F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852-2738. The PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4209, by fax at (301) 415-3548, and by e-mail to pdr.resource@nrc.gov.

Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

Dated at Rockville, Maryland, this 6th day of April 2009.

For the Nuclear Regulatory Commission.

Andrea D. Valentin,

Chief, Regulatory Guide Development Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

VoIP, Inc.; Order of Suspension of Trading

April 13, 2009.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of VoIP, Inc. ("VoIP") because it has not filed an Annual Report on Form 10-K since December 31, 2006 or periodic or quarterly reports on Form 10-Q for any fiscal period subsequent to its fiscal quarter ending September 30, 2007.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above listed company.

Therefore, it is ordered, pursuant to Section 12(k) of the Securities Exchange Act of 1934, that trading in the

securities in the above listed company is suspended for the period from 9:30 a.m. EDT, April 13, 2009 through 11:59 p.m. EDT, on April 24, 2009.

By the Commission.

Florence E. Harmon,

Deputy Secretary.

BILLING CODE 8010-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

[Docket No. USTR-2009-0010]

Request for Public Comments Regarding Status of U.S. Equipment Industry Access to the European Community's (EC) Galileo Program and European Markets for Related Goods and Services

AGENCY: Office of the United States Trade Representative.

ACTION: Request for comments.

SUMMARY: The Trade Policy Staff Committee is seeking the views of interested parties on six questions regarding U.S. equipment industry access to the EC Galileo program and European markets for related goods and services, which pertain to Articles 5, 6, and 8 of the Agreement on the Promotion, Provision and Use of Galileo and GPS Satellite-Based Navigation Systems and Related Applications ("Agreement"). USTR will use this information in connection with its preparation of a report to Congress, as requested in the explanatory statement accompanying the Omnibus Appropriations Act, 2009, and to identify issues that may merit further discussion with the EC and its Member States under the consultation mechanism established under the Agreement.

DATES: Public comments are due no later than 5 p.m., Wednesday, May 13, 2009.

ADDRESSES: Comments should be submitted electronically to <http://www.regulations.gov>, docket number USTR-2009-0010. If you are unable to provide submissions by <http://www.regulations.gov>, please contact Gloria Blue at (202) 395-3475 to arrange for an alternative method of transmission. If (as explained below) the comment contains confidential information, then the comment should be submitted only by fax to Gloria Blue at (202) 395-5141.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning written comments, contact Gloria Blue,

Executive Secretary, Trade Policy Staff Committee, at (202) 395-3475. All other questions should be directed to Scott Pietan, Director of Industry, Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC, (202) 395-9646.

SUPPLEMENTARY INFORMATION: In 2004, the United States and the EC and its Member States signed the Agreement on the Promotion, Provision and Use of Galileo and GPS Satellite-Based Navigation Systems and Related Applications ("Agreement"), which addresses U.S. and EC satellite navigation services, in particular the U.S. Global Positioning System, and the planned EC Galileo system. The Agreement has not yet entered into force, but it is being provisionally applied. The Agreement may be found at <http://pnt.gov/public/docs/2004/gpsgalileoagreement.pdf>. In addition to addressing signal compatibility and individual and mutual security concerns, the Agreement calls for non-discrimination and open markets in trade in civil satellite navigation-related goods and services.

In an explanatory statement accompanying the Omnibus Appropriations Act, 2009, Congress requested that USTR report on the status of U.S. equipment industry access to the EC Galileo program and European markets for related goods and services, in order to assess EC compliance with the Agreement. Joint Explanatory Statement to the Omnibus Appropriations Act, 2009, Public Law 111-008, 155 Cong. Rec. H1653, H1840 (daily ed., Feb. 23, 2009). To assist it in fulfilling that request, and in identifying matters that merit further discussion with the EC and its Member States in connection with the consultation mechanism provided under the Agreement, USTR is seeking comments on six issues:

(1) Has the EC or any of its Member States established any measures of the type described in Article 5.1 of the Agreement that adversely affect U.S. equipment industry access to Galileo navigation and timing signals and services, value added services, augmentations and global navigation and timing goods, or European markets for related goods and services?

(2) Has the EC or any of its Member States established any measures that have the effect, directly or indirectly, of mandating the use of any civil satellite-based navigation and timing signals or services, value-added service, augmentation, or global navigation and timing equipment within its territory, not expressly authorized by the

International Civil Aviation Organization or the International Maritime Organization, as described in Article 5.2 of the Agreement?

(3) Does the EC or any of its Member States maintain a non-discriminatory approach with respect to trade in goods and services related to civil satellite-based navigation and timing signals, augmentations, and value-added services, consistent with the affirming statement contained in Article 6.1 of the Agreement?

(4) Are any EC or Member State measures with respect to goods and services related to civil satellite-based navigation and timing signals or services, augmentations, and value-added services used as a disguised restriction on or an unnecessary obstacle to international trade, as described in Article 6.2 of the Agreement?

(5) Does the EC make publicly available on a non-discriminatory basis, sufficient information concerning its unencrypted civil satellite-based navigation and timing signals and augmentations, consistent with Article 8.1 of the Agreement?

(6) To the extent that it provides civil satellite-based navigation and timing signals or services, augmentation, or value-added service for civil users that is encrypted or otherwise has features that allow the global navigation service provider to deny access, does the EC or any of its Member States, subject to applicable export controls, afford to U.S. manufacturers of global navigation and timing equipment or augmentation or value-added services providers, on a non-discriminatory basis, access to the information necessary to incorporate such encryption or other similar features into their equipment, through licensing of necessary information or other means at market prices, consistent with the terms set forth in Article 8.2 of the Agreement?

Public Comment: Requirements for Submissions

Persons may submit public comments electronically to <http://www.regulations.gov> docket number USTR-2009-0010. If you are unable to provide submission by <http://www.regulations.gov>, please contact Gloria Blue at (202) 395-3475 to arrange for an alternative method of transmission.

To submit comments via <http://www.regulations.gov>, enter docket number USTR-2009-0010 on the home page and click "go". The site will provide a search-results page listing all documents associated with this docket. Find a reference to this notice by
