Polyethylene Retail Carrier Bags From Malaysia, Thailand, and the People's Republic of China: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Reviews

AGENCY: International Trade Administration, Department of Commerce.

DATES: *Effective Date:* April 15, 2009.

FOR FURTHER INFORMATION CONTACT:

Jerrold Freeman or Richard Rimlinger, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230; telephone: (202) 482-0180 or (202) 482-4477, respectively.

SUPPLEMENTARY INFORMATION:

Background

At the request of interested parties, the Department of Commerce (the

Department) initiated administrative reviews of the antidumping duty orders on polyethylene retail carrier bags from Malaysia, Thailand, and the People's Republic of China for the period August 1, 2007, through July 31, 2008. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 73 FR 56795 (September 30, 2008).

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. If it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month. See also 19 CFR 351.213(h)(2).

We determine that it is not practicable to complete the preliminary results of these three administrative reviews by the current deadline of May 3, 2009, for several reasons. Specifically, the Department has granted the respondents in each of the reviews several extensions to respond to the original and supplemental questionnaires. Thus, the Department needs additional time to review and analyze the responses submitted by the respondents in each review. Further, the Department requires additional time to review, and verify as appropriate, cost-of-production and/or sales information submitted by various respondents in each of the reviews. Therefore, in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), we are partially extending the time period for issuing the preliminary results of these reviews until July 2, 2009.

This notice is published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act and 19 CFR 351.213(h)(2).

Dated: April 9, 2009.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Endangered Species; File No. 10027

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application for permit modification

SUMMARY: Notice is hereby given that the Center for Biodiversity and Conservation, American Museum of Natural History, Central Park West at 79th Street, New York, New York 10024, has requested a modification to scientific research Permit No. 10027.

DATES: Written, telefaxed, or e-mail comments must be received on or before May 18, 2009.

ADDRESSES: The modification request and related documents are available for review upon written request or by appointment in the following offices:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521; and Pacific Islands Region, NMFS, 1601 Kapiolani Blvd., Rm 1110, Honolulu, HI 96814-4700; phone (808)944-2200; fax (808)973-2941.

Written comments or requests for a public hearing on this request should be submitted to the Chief, Permits, Conservation and Education Division, F/PR1, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910. Those individuals requesting a hearing should set forth the specific reasons why a hearing on this particular modification request would be appropriate.

Comments may also be submitted by facsimile at (301)427-2521, provided the facsimile is confirmed by hard copy submitted by mail and postmarked no later than the closing date of the comment period.

Comments may also be submitted by e-mail. The mailbox address for providing e-mail comments is NMFS.Pr1Comments@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: File No. 10027.

FOR FURTHER INFORMATION CONTACT:

Patrick Opay or Amy Hapeman, (301)713-2289.

SUPPLEMENTARY INFORMATION: The subject modification to Permit No. 10027 is requested under the authority

of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

Permit No. 10027, issued on July 30, 2008 (73 FR 44224), authorizes the permit holder to study the population biology and connectivity of green (*Chelonia mydas*) and hawksbill (*Eretmochelys imbricata*) sea turtles focusing on distribution and abundance, ecology, health, and threats to sea turtles at the Palmyra Atoll in the Pacific Ocean. The permit holder requests a modification to their existing permit to increase the number of green sea turtles they may take each year. Researchers propose to annually satellite tag up to 16 animals; annually sonic transmitter tag up to 30 animals; annually blood and tissue sample up to 100 animals; annually flipper and PIT tag up to 100 animals; and annually gastric lavage up to 50 animals. The modification would allow them to more quickly accumulate appropriate sample sizes so that information from the study can help inform conservation and management of this species in the Pacific. The amended permit would expire July 31, 2013.

Endangered Species; File No. 1549–01

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit modification.

SUMMARY: Notice is hereby given that Dr. Boyd Kynard, S.O. Conte Anadromous Fish Research Center (USGS-BRD), Box 796, One Migratory Way, Turners Falls, MA 01376, has been issued a modification to scientific research Permit No. 1549–01.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the following offices:

FOR FURTHER INFORMATION CONTACT: Malcolm Mohead or Kate Swails, (301)713–2289.

SUPPLEMENTARY INFORMATION: On August 4, 2008, notice was published in the **Federal Register** (73 FR 45215) that a modification of Permit No. 1549 had been requested by the above-named individual. The requested modification has been granted under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

In addition to all research activities authorized under Permit No. 1549, this modification authorizes the researcher to conduct new research in the Merrimack River to: (1) take 200 adult/large juvenile and 100 small juvenile (0–3 years) shortnose sturgeon; (2) use trawls for capture of smaller juveniles; (3) telemetry tag 15 adults/large juveniles and 15 early juveniles; (4) change the action area to include the Estuary to I–495 at Haverhill, MA; and (5) increase incidental mortality of shortnose sturgeon to a total of two sturgeon, but only one adult per year. The purpose of the modification is to provide a mark/recapture population estimate of shortnose sturgeon for the river and to provide evidence for recolonization verses recruitment to explain an apparent recent increase in abundance of shortnose sturgeon recently found in the river. This modification is valid through the expiration date of the original permit, January 31, 2012.

Issuance of this modification, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of such endangered or threatened species, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.
