Approval and Promulgation of Air Quality Implementation Plans; Texas; Reasonable Further Progress Plan, Motor Vehicle Emissions Budgets and 2002 Emissions Inventory; Houston-Galveston-Brazoria 1997 8-Hour Ozone Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the Texas State Implementation Plan (SIP) to meet the Reasonable Further Progress (RFP) requirements of the Clean Air Act (CAA) for the Houston-Galveston-Brazoria (HGB) moderate 1997 8-hour ozone nonattainment area. EPA is also proposing to approve the RFP motor vehicle emissions budgets (MVEBs) and the 2002 Base Year Emission Inventory associated with the revision. EPA is proposing to approve the SIP revision

because it satisfies the RFP and Emissions Inventory requirements for 1997 8-hour ozone nonattainment areas classified as moderate, and demonstrates further progress in reducing ozone precursors. EPA is proposing to approve the revision pursuant to section 110 and part D of the CAA and EPA's regulations.

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule, which is located in the rules section of this **Federal Register**.

Lead; Minor Amendments to the Renovation, Repair, and Painting Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing two minor revisions to the final Lead Renovation, Repair, and Painting Program (RRP) rule that published in the **Federal Register** on April 22, 2008. First, EPA is proposing to require accredited providers of renovator or dust sampling technician training to submit post-course notifications, including digital photographs of each successful trainee, to EPA. The 2008 rule establishes accreditation, training, certification, and recordkeeping requirements as well as work practice standards on persons performing renovations for compensation in most pre-1978 housing and child-occupied facilities. The post-course notification requirement, designed to supply important information for EPA's compliance monitoring efforts, was inadvertently omitted from the final RRP rule's regulatory text, although it was discussed in the preamble of the final rule. In addition, EPA is proposing to remove the requirement for accredited lead-based paint activities training providers—those who provide inspector, risk assessor, project designer, and abatement supervisor and worker training—to submit to EPA a digital photograph of each successful trainee along with their post-course notifications. That requirement, inadvertently imposed as part of the final RRP rule, is unnecessary because EPA already receives photographs of these individuals through other means.
