

surveying equipment in or inby the last open crosscut and examine the equipment prior to use to ensure that the equipment is in safe operating condition; (2) have a qualified person examine the equipment at intervals not to exceed 7 days and record the examination results in the weekly electrical equipment examination book. The examination will include: (i) Checking the instrument for any physical damage and the integrity of the case; (ii) removing the battery and inspecting for corrosion; (iii) inspecting the contact points to ensure a secure connection to the battery; (iv) reinserting the battery and powering up and shutting down to ensure proper connections; and (v) checking the battery compartment cover to ensure that it is securely fastened. In addition, the operator will also: (1) Have a qualified person continuously monitor for methane immediately before and during the use of non-permissible surveying equipment within 150 feet of pillar workings; (2) eliminate the use of non-permissible surveying equipment if methane is detected in concentrations at or above 1.0 percent; (3) de-energize the equipment immediately and withdraw the equipment further than 150 feet from pillar workings when 1.0 percent or more of methane is detected while the equipment is in use; (4) eliminate the use of non-permissible surveying equipment where float coal dust is in suspension; (5) charge or change batteries contained in the surveying equipment in fresh air outby the last open crosscut; (6) provide training to qualified personnel who use the surveying equipment to properly recognize the hazards and limitations associated with the use of the equipment; (7) put the non-permissible surveying equipment in service only after MSHA has initially inspected the equipment and determined that it is in compliance with all of the terms and conditions of this petition; and (8) submit proposed revisions for the part 48 training plan to the District Manager,

which will include specified initial and refresher training regarding the terms and conditions stated in the Proposed Decision and Order. The petitioner asserts that application of the existing standard would result in a diminution of safety to the miners and the proposed alternative method would at all times guarantee no less than the same measure of protection afforded by the existing standard.

Patricia W. Silvey,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 1505-01-D

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement

Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

1. *Title and purpose of information collection:* Application for Survivor Insurance Annuities; OMB 3220-0030.

Under Section 2(d) of the Railroad Retirement Act (RRA), monthly survivor annuities are payable to surviving widow(ers), parents, unmarried children, and in certain cases, divorced wives (husbands), mothers (fathers), remarried widow(ers), and grandchildren of deceased railroad employees. The collection obtains the information required by the RRB to determine entitlement to and the amount of the annuity applied for.

The RRB currently utilizes Form(s) AA-17, Application for Widow(ers) Annuity, AA-17b Applications for Determination of Widow(er) Disability, AA-17cert, Application Summary and Certification, AA-18, Application for Mother's/Father's and Child's Annuity, AA-19, Application for Child's Annuity, AA-19a, Application for Determination of Child Disability, and AA-20, Application for Parent's Annuity to obtain the necessary information. The RRB proposes no changes to the forms in the information collection. One response is requested of each respondent. Completion is required to obtain benefits.

Estimate of Annual Respondent Burden

The estimated annual respondent burden is as follows:

Form No.(s)	Annual responses	Time (min)	Burden (hrs)
AA-17 (manual, without assistance)	100	47	78
AA-17b (with assistance)	280	40	187
AA-17b (without assistance)	20	50	17
AA-17cert	3,000	20	1,000
AA-18 (manual, without assistance)	12	47	9
AA-19 (manual, without assistance)	9	47	7
AA-19a (with assistance)	285	45	214
AA-19a (without assistance)	15	65	16
AA-20 (manual, without assistance)	1	47	1
