Animal Plant and Health Inspection Service

Title: Brucellosis Program.
OMB Control Number: 0579-0047.
Summary of Collection: Brucellosis is a contagious animal disease that causes loss of young through spontaneous abortion or birth of weak offspring, reduced milk production, and infertility. It is mainly a disease of cattle, bison and swine. There is no economically feasible treatment for brucellosis in livestock. Veterinary Services, a division with USDA's Animal and Plant Health Inspection Service (APHIS), is responsible for administering regulations intended to prevent the dissemination of animal diseases, such as brucellosis, within the United States. These regulations are found in Part 78 of Title 9, Code of Federal Regulations. The continued presence of brucellosis in a herd seriously threatens the health of other animals. APHIS will collect information using various forms.

Need and Use of the Information: APHIS will use the information collected from the forms to continue to search for other infected herds, maintain identification of livestock, monitor deficiencies in identification of animals for movement, and monitor program deficiencies in suspicious and infected herds. This information will be used to determine brucellosis area status and aids herd owners by speeding up the detection and elimination of serious disease conditions in their herds. Without the data, APHIS' Brucellosis Eradication Program would be severely crippled.

Description of Respondents: Business; State, local or tribal government.

Number of Respondents: 117,446.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 440,584.

Animal & Plant Health Inspection Service

Title: Citrus from Peru.

OMB Control Number: 0579-0289.

Summary of Collection: The Plant Protection Act (7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent

the introduction of plant pests into the United States or their dissemination within the United States. The Animal and Plant Health Inspection Service (APHIS) amended the fruits and vegetables regulations to allow the importation, under certain conditions of fresh commercial citrus fruit (grapefruit, limes, mandarin oranges, or tangerines, sweet oranges, and tangelos) from approved areas of Peru into the United States.

Need and Use of the Information: APHIS will collect information that includes inspections by national plant protection organization officials from Peru, grower registration and agreement, fruit fly trapping, monitoring, recordkeeping, and phytosanitary certificate. Without the information APHIS could not verify that fruit was treated, verify that citrus canker, fruit flies, and other pests were destroyed by treatment, or that the treatment was adequate to prevent the risk of plant pests from entering the United States.

Description of Respondents: Not-for-profit institutions.

Number of Respondents: 53.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 11,080.

OMB Control Number: 0524-0039.

Summary of Collection: The United States Department of Agriculture (USDA), Cooperative State Research, Education, and Extension Service (CSREES) sponsor ongoing research, education, and extension programs under which competitive, formula, and special awards of a high-priority nature are made. These programs are authorized pursuant to the authorities contained in the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3101), the Smith-Lever Act, and other legislative authorities. Before awards can be issued, certain information is required from applicants as part of an overall application. In addition to a project summary, proposal narrative, vitae of key personnel, and other pertinent technical aspects of the proposed project, supporting documentation of an administrative and budgetary nature also must be provided. In addition to Federal-wide standard grant application forms, CSREES will use the following program and agency specific components as part of its application package: Supplemental Information Form; Application Type Form; Application Modification Form; Form CSREES-2008, Assurance Statement(s); Form CSREES-2010, Fellowships/Scholarships Entry/Annual Update/Exit Form; and the Summary of USDA/1890 Cooperation Form.
