

FDA acknowledges that carcass disposal problems exist in certain states or regions and that developing and implementing adequate solutions to these problems is challenging. Furthermore, FDA recognizes that in certain circumstances it may be particularly challenging to address such disposal problems by the October 26, 2009, compliance date. FDA intends to finalize the Draft Small Entities Compliance Guide for Renderers that was issued on November 26, 2008. In addition, FDA intends to engage in further outreach to the rendering industry, pertinent State agencies, and others affected by the rule. FDA is committed to working with all affected parties to the extent possible to assist efforts in mitigating the impacts associated with implementation of the rule.

#### IV. Conclusion

At this time, the agency is confirming the April 27, 2009, effective date of the final rule published in the **Federal Register** of April 25, 2008, entitled "Substances Prohibited From Use in Animal Food or Feed." The agency is also establishing a compliance date of October 26, 2009, for this rule in order to allow additional time for affected persons to comply with the new requirements.

Dated: April 21, 2009.
