

information also improves EPA's knowledge and understanding of the environmental and energy impacts associated with goods movement, and the effectiveness of both proven and emerging strategies to lessen those impacts.

In addition to requesting FLEET Model data and annual updates on fuel consumption and environmental performance, EPA may ask its SmartWay Partners for other kinds of information. These requests for information may be made of all our SmartWay Partners, including our affiliates. Some examples of this kind of information could include opinions and test data on the effectiveness of new and emerging technology applications; numeric data on sales volumes associated with SmartWay recommended vehicle equipment and technologies; the reach and value of partnering with EPA through the SmartWay program; and awareness of the SmartWay brand. In some instances, EPA might also query other freight industry representatives (not just SmartWay Partners), including trade and professional associations, nonprofit environmental groups, energy, and community organizations, and schools and universities, and a small sampling of the general public.

**Burden Statement:** Total annual burden is estimated at 10,081 hours. The estimated number of Respondent Partners is 1,462 the first year, with a growth of 255 Partners per year projected into the future. The estimated average burden time per Respondent is 4.6 hours annually. EPA notes that this is a weighted average across all SmartWay Partners, regardless of whether they are affiliates, shippers, carriers, or logistics companies. The weighted average also includes 300 consumer and industry respondents who spend far less time, providing the SmartWay program with basic information on their awareness of the program.

Among Respondent Partners, the burden hours are typically higher for larger companies with more complex fleets, than for smaller companies. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any

previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

#### What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

**Submission for OMB Review; Comment Request; The Impact of Clinical Research Training and Medical Education at the Clinical Center on Physician Careers in Academia and Clinical Research**

*Summary:* Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Clinical Center, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal**

**Register** on January 2, 2009, page 112 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

*Proposed Collection: Title:* The Impact of Clinical Research Training and Medical Education at the Clinical Center on Physician Careers in Academia and Clinical Research. *Type of Information Collection Request:* New. *Need and Use of Information Collection:* This study will assess the value of the training programs administered by the Office of Clinical Research Training and Medical Education. The primary objective of the survey is to determine if training programs have had an impact on whether the trainees are performing clinical research, hold an academic appointment, have National Institutes of Health funding sources as well as to obtain information from the trainees as to what part of the National Institutes of Health medical education program they feel could be improved upon, the quality of the mentoring program, and how their National Institutes of Health training has contributed to their current clinical competence. *Frequency of Response:* On occasion. *Affected Public:* Individuals and businesses. *Type of Respondents:* Physicians, dentists, medical students, dental students, nurses, and Ph.D.s. The annual reporting burden is as follows: *Estimated Number of Respondents:* 825. *Estimated Number of Responses per Respondent:* 1; *Average Burden Hours per Response:* 0.5; and *Estimated Total Annual Burden Hours Requested:* 412.5.

Type of respondents	Estimated number of respondents	Estimated number of responses per respondent	Average burden hours per response	Estimated total annual burden hours requested
Doctoral Level .....	625	1	0.5	312.5
Students .....	100	1	0.5	50
Nurses .....	100	1	0.5	50
Total .....				412.5

*Request for Comments:* Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper

performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the

validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who
