SUPPLEMENTARY INFORMATION:

I. Background

The Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA) was enacted on October 3, 2008 as sections 511 and 512 of the Tax Extenders and Alternative Minimum Tax Relief Act of 2008 (Division C of Pub. L. 110–343).1 MHPAEA amends the Employee Retirement Income Security Act of 1974 (ERISA), the Public

1 A technical correction to the effective date for collectively bargained plans was made by Public Law 110–460.
Health Service Act (PHS Act), and the Internal Revenue Code of 1986 (Code). In 1996, Congress enacted the Mental Health Parity Act of 1996 (MHPA 1996), which required parity in aggregate lifetime and annual dollar limits for mental health benefits and medical and surgical benefits. These group market mental health parity provisions were codified in section 712 of ERISA, section 2705 of the PHS Act, and section 9812 of the Code. The enactment of MHPAEA created new requirements and amended several of the existing group market mental health parity provisions.

MHPAEA modifies the original definition of mental health benefits created by MHPA 1996 and adds a definition of substance use disorder benefits. Mental health benefits are defined as benefits with respect to services for mental health conditions, defined under the terms of the plan and in accordance with applicable Federal and State law. Substance use disorder benefits are defined as benefits with respect to services for substance use disorders, as defined under the terms of the plan and in accordance with applicable Federal and State law.

While retaining MHPA 1996’s requirements for parity in the application of aggregate lifetime and annual dollar limits, MHPAEA adds new requirements. For group health plans (and health insurance coverage offered in connection with group health plans) that provide both medical and surgical benefits and mental health or substance use disorder benefits, MHPSEA requires plans or coverage to ensure that: (1) The financial requirements (including deductibles, copayments, coinsurance, and out-of-pocket expenses, but excluding aggregate lifetime limits and annual limits (which are subject to MHPA 1996’s existing requirements)) applicable to such mental health or substance use disorder benefits are no more restrictive than the predominant financial requirements applied to substantially all medical and surgical benefits covered by the plan; (2) there are no separate cost-sharing requirements that are applicable only with respect to mental health or substance use disorder benefits; (3) the treatment limitations (including limits on the frequency of treatment, number of visits, days of coverage, or other similar limits on the scope or duration of treatment) applicable to such mental health or substance use disorder benefits are no more restrictive than the predominant treatment limitations applicable to substantially all medical and surgical benefits covered by the plan; and (4) there are no separate treatment limitations that are applicable only with respect to mental health or substance use disorder benefits. A financial limit or treatment limit is considered to be predominant under MHPAEA if it is the most common or frequent of such type of limit or requirement.

MHPAEA requires the criteria for medical necessity determinations made under the plan (or coverage) with respect to mental health or substance use disorder benefits be made available by the plan administrator (or health insurance issuer) in accordance with regulations to any current or potential participant, beneficiary, or contracting provider upon request. The reason for any denial under the plan (or coverage) of reimbursement or payment for services with respect to mental health or substance use disorder benefits in the case of any participant or beneficiary must, on request or as otherwise required, be made available by the plan administrator (or issuer) to the participant or beneficiary in accordance with regulations.

Under MHPAEA, in the case of a plan or issuer that provides both medical and surgical benefits and mental health or substance use disorder benefits, if the plan or issuer provides coverage for medical or surgical benefits provided by out-of-network providers, the plan or issuer must provide coverage for mental health or substance use disorder benefits provided by out-of-network providers in a manner that is consistent with the requirements of MHPAEA and MHPA 1996.

MHPAEA amended the two exemptions in subsection (c) of the group market mental health parity provisions. MHPAEA exempts group health plans (or health insurance coverage offered in connection with such a plan) of a small employer from the requirements of the group market mental health parity provisions for any plan year. A small employer is defined as an employer who employed an average of at least two (or one in the case of an employer residing in a State that permits small groups to include a single individual) but not more than 50 employees on business days during the preceding calendar year.

MHPAEA also exempts group health plans (or health insurance coverage offered in connection with such a plan) from the requirements of the group market mental health parity provisions if application of the group market mental health parity provisions results in an increase for the plan year involved of the actual total costs of coverage with respect to mental and surgical benefits and mental health and substance use disorder benefits by an amount that exceeds two percent for the first plan year in which the law applies and one percent for each subsequent plan year. In this case, the requirements of the group market mental health parity provisions do not apply to the plan or coverage during the following plan year, and such exemption applies for one plan year. Of course, an employer may elect to continue to apply mental health and substance use disorder parity with respect to the group health plan (or coverage) involved regardless of any increase in total costs.

Under this cost exemption, determinations as to increases in actual costs under a plan must be made and certified by a qualified and licensed actuary who is a member in good standing of the American Academy of Actuaries. Exemption determinations must be in a written report prepared by the actuary, which must be maintained by the plan or issuer for six years following the notification of election to implement the exemption. Determinations are to be made after the plan has complied with the requirements of the group market mental health parity provisions for the first six months of the plan year involved.

A plan or issuer that qualifies for and elects to implement the cost exemption must promptly notify the Secretaries of Labor, Health and Human Services, and the Treasury (as appropriate), the appropriate state agencies, and participants and beneficiaries in the plan. The notifications to the Secretaries, which are confidential, must include a description of (1) The number of covered lives under the plan (or coverage) involved at the time of the notification (and, as applicable, at the time of any prior election of the cost exemption by the plan or coverage); (2) a description of the actual total costs of coverage with respect to medical and surgical benefits and mental health and substance use disorder benefits under the plan (for both the plan year upon which a cost exemption is sought and the year prior); and (3) the actual total costs of coverage with respect to mental health and substance use disorder benefits under the plan (for both the plan year upon which a cost exemption is sought and the year prior). The Secretaries must make available upon request, but no more frequently than annually, an anonymous itemization of these notifications, including a breakdown of States by the size and type of employers submitting the notification and a summary of the data received. The Secretaries and the appropriate state agencies are authorized by MHPAEA to audit the
things, an estimate of the number of small entities subject to the regulations (for this purpose, plans, employers, and issuers and, in some contexts small governmental entities), the expense of the reporting, recordkeeping, and other compliance requirements (including the expense of using professional expertise), and a description of any significant regulatory alternatives considered that would accomplish the stated objectives of the statute and minimize the impact on small entities. The Departments consider a small entity to be an employee benefit plan with fewer than 100 participants.

The Paperwork Reduction Act requires an estimate of how many “respondents” will be required to comply with any “collection of information” requirements contained in regulations and how much time and cost will be incurred as a result. A collection of information includes recordkeeping, reporting to governmental agencies, and third-party disclosures. The Departments have current approval for information collection requirements related to the increased cost exemption under MHPA 1996.

The Departments are requesting comments that may contribute to the analyses that will be performed under these requirements, both generally and with respect to the following specific areas:

(i) What policies, procedures, or practices of group health plans and health insurance issuers may be impacted by MHPAEA? What direct or indirect costs would result? What direct or indirect benefits would result? Which stakeholders will be impacted by such benefits and costs?

(ii) Are there unique costs and benefits for small entities subject to MHPAEA (that is, employers with greater than 50 employees that maintain plans with fewer than 100 participants)? What special consideration, if any, is needed for these employers or plans? What costs and benefits have issuers and small employers experienced in implementing parity under State insurance laws or otherwise?

(iii) Are there additional paperwork burdens related to MHPAEA compared to those related to MHPA 1996, and, if so, what estimated hours and costs are associated with those additional burdens?

B. Comments Regarding Regulatory Guidance

The Departments are seeking comments to aid in the development of regulations regarding MHPAEA. To assist interested parties in responding,
coverage provided for medical and surgical benefits?
6. Which aspects of the increased cost exemption, if any, require additional guidance? Would model notices be helpful to facilitate disclosure to Federal agencies, State agencies, and participants and beneficiaries regarding a plan’s or issuer’s election to implement the cost exemption?

[Docket No. USCG–2007–27022]
RIN 1625–AB13
Revision of LNG and LHG Waterfront Facility General Requirements

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to revise the requirements for waterfront facilities handling liquefied natural gas (LNG) and liquefied hazardous gas (LHG). The proposed revisions would bring the regulations up to date with existing industry practices and current Coast Guard policy implemented due to increased emphasis on security since the events of September 11, 2001. These revisions would harmonize the Coast Guard’s regulations for LNG with those established by the Federal Energy Regulatory Commission (FERC), the agency responsible for permitting onshore and near-shore LNG terminals.

This proposed rulemaking would not affect LNG deepwater ports.
